THE *EDUCATION CODE* | A10

A10-104 The *Education Code*

The Pacific Union Conference of Seventh-day Adventists coordinates a system of church schools for the education of its youth, kindergarten through graduate school. The purpose and aim of this educational program is to promote the harmonious development of the whole person—spiritual, intellectual, physical, and social.

The *Education Code* is a compilation of policies and provisions relating to the establishment, organization, administration, operation, and maintenance of the K-12 church school system. It clarifies and details the role and responsibilities of persons, committees, and boards of each entity—school, conference, union conference.

The policies contained in the *Education Code* are developed and adopted through the cooperative efforts of the school, local conference and union conference administrators and boards of education. Because of this broad-based involvement, the *Education Code* is accepted as the basis for the organization, administration, and operation of the Pacific Union Conference K-12 school system.

When there is no provision, stipulation or prohibition for an area under consideration, a conference or institution may: a) develop a policy, procedure or practice to meet a local need; or b) recommend that a policy be adopted for inclusion in the *Education Code*. If a policy exists, the higher standards of either the state or *Education Code* will apply.

The additions, revisions or deletions in the *Education Code* become effective only when recommended by the Pacific Union Conference Board of Education and voted by the Pacific Union Conference Executive Committee. The *Education Code* is consistent with the policies and provisions adopted by the Pacific Union Conference, North American Division Office of Education and the General Conference Department of Education.

PHILOSOPHY OF SEVENTH-DAY ADVENTIST® EDUCATION | A11

A11-104 Mission of Seventh-day Adventist Education

The Seventh-day Adventist Church in North America operates a ministry of elementary and secondary education that began in 1872. The unique philosophy of Christian education of the Church is based on the Scriptures and the writings of Ellen G. White.

The primary aim of Seventh-day Adventist education is to provide opportunity for students to accept Christ as their Savior, to allow the Holy Spirit to transform their lives, and to fulfill the commission of preaching the gospel to all the world.

The education program of church-affiliated schools are predicated on the belief that each student is unique and of inestimable value, and on the importance of the development of the whole person. Students are educated to accept service as a way of life, to be sensitive to the needs of the people in the home and society, and to become active members in the Church.

[NAD Working Policy FEA 05 05]

A11-108 General Statement of Seventh-day Adventist Educational Philosophy [Revised 4/2016]

The Seventh-day Adventist Church recognizes God as the ultimate source of existence truth, and power. In the beginning, God created in His image a perfect humanity, a perfection later marred by sin. Education in its broadest sense is a means of returning human beings to their original relationship with God. The distinctive characteristics of this Adventist worldview, built around creation, the fall, redemption, and re-creation, are derived from the Bible and the inspired writings of Ellen G. White.

The aim of true education is to restore human beings into the image of God as revealed by the life of Jesus Christ. Only through the guidance of the Holy Spirit can this be accomplished. An education of this kind imparts far more than academic knowledge. It fosters a balanced development of the whole person—spiritual, physical, intellectual and social-emotional—a process that spans a lifetime. Working together, homes, schools, and churches cooperate with divine agencies in preparing learners for citizenship here in this world and for eternity.

[NAD Working Policy FEA 05 01]

A11-112 Goals for Curriculum in Seventh-day Adventist Schools

The following goal statements have been established to support the unique philosophy of Seventh-day Adventist education.

1. Acceptance of God – Each student will surrender one’s whole life to God; develop a relationship with Jesus Christ; and allow the Holy Spirit to work in one’s life.
2. Commitment to the Church – Each student will desire to know, live, and share the message and mission of the Seventh-day Adventist Church.
3. Interpersonal Relationships – Each student will develop a sense of self-worth, skills in interpersonal relationships, an understanding of the responsibilities of family membership, and the ability to respond with sensitivity to the needs of others.

[Journey to Excellence, p. 6]

A11-116 Objectives of Seventh-day Adventist Education

The Seventh-day Adventist Church desires to provide for all its youth an education within the framework of the science of salvation. The fundamentals and common branches of knowledge are to be studied so that proficiency is achieved and a high quality of teaching is maintained.

The Seventh-day Adventist elementary school will assist each child to develop:

- A. A love and appreciation for the privileges, rights, and responsibilities guaranteed each individual and social group, and,
- B. A wholesome respect and attitude for each unit of society—home, church, school, and government.

The elementary school will offer an organized program to ensure adequate development leading toward total spiritual, physical, mental, and emotional health and a core of basic skills and knowledge for everyday living.

A11-116 Objectives of Seventh-day Adventist Education (Cont'd)

The Seventh-day Adventist secondary school, predicated on the results obtained through the elementary school with character building as an undergirding structure, will endeavor to operate realistically for each student in the upgrading and maintenance of health, in the command of fundamental learning processes, in the teaching of worthy home membership, vocational skills, civic education, worthy use of leisure, and ethical maturity. The secondary school, implementing the church philosophy, will seek for objectives of spiritual dedication, self-realization, social adjustment, civic responsibility, and economic efficiency. [*NAD Working Policy FEA 05 15.*]

A11-120 The Seventh-day Adventist School as an Integral Part of the Mission of the Seventh-day Adventist Church

Seventh-day Adventist schools are an integral part of the mission of the Church in the following ways:

- A. "To restore in man the image of his Maker, to bring him back to the perfection in which he was created, to promote the development of body, mind, and soul, that the divine purpose in his creation might be realized—this was to be the work of redemption. This is the object of education, the great object of life." [*Education*, pp. 15, 16]
- B. The commission given in Matthew 28:18-20 states that the basic task of the Church is an educational task.
- C. Seventh-day Adventist education has as its basic evangelistic task the education and redemption of the children and youth of the Church. Its object is to promote the development of character and to direct the youth to a "knowledge of God, the Creator, and of Christ, the Redeemer, as they are revealed in the sacred word." [*Education*, p. 17] In pursuing this task Adventist schools have a greater continuing influence than any other aspect of the Church program.
- D. The school is concerned about the whole person—body, mind and soul—and seeks to ensure that youth receive a balanced physical, mental, moral, social, and practical education.
- E. The school emphasizes the principle of service to God and man. It prepares youth for a life of service whether as employees of the Church, active church members, or, contributing members of society. Enrollment in Adventist schools is open to all applicants willing to accept and follow the established policies and practices of the school.
- F. The members of the school boards and local conference boards of education are members of the Seventh-day Adventist Church.
 1. The school board is composed of members of the Seventh-day Adventist Church who represent a cross section of the school constituency and who are supportive of Seventh-day Adventist Education.
 2. The local conference and union conference boards of education are composed of representatives of various church institutions and/or conferences, lay members of the Church, and church officials.
- G. Education employees must be active members of the Seventh-day Adventist Church in regular standing, and committed to the program of the Church. Employment qualifications, licenses and credentials, salary and wages, benefits, and retirement are all established and regulated by the policies which cover all other denominational workers.

A11-120 The Seventh-day Adventist School As An Integral Part of the Mission of the Seventh-day Adventist Church (Cont'd)

- H. The uniquely designed curriculum in Seventh-day Adventist schools is developed by church educators who ensure that the educational objectives of the Church are achieved.
1. It is based on a distinctive Seventh-day Adventist philosophy with a strong commitment to academic excellence.
 2. It utilizes the best in current curricular research.
 3. It reflects an awareness of the principles of human growth and development and the worth and dignity of each student.
 4. It emphasizes a process which encourages, guides, and sustains the learner in seeking to relate to the Creator and to fellow human beings.
- I. The title to school buildings and property is held by the local conference entity that holds title to all church and school properties, not by individual trustees or congregations.

[NAD Working Policy FEA 05 20]

A11-124 Ethnic and Multi-cultural Sensitivity [Revised 10/2018]

The education ministry in the union is committed to foster, facilitate, and promote ethnic and multi-cultural sensitivity following the guidelines of the 14th Fundamental Belief of the Seventh-day Adventist Church:

“The church is one body with many members, called from every nation, kindred, tongue, and people. In Christ we are a new creation; distinctions of race, culture, learning, and nationality, and differences between high and low, rich and poor, male and female, must not be divisive among us. We are all equal in Christ, who by one Spirit has bonded us into one fellowship with Him and with one another; we are to serve and be served without partiality or reservation. Through the revelation of Jesus Christ in the Scriptures we share the same faith and hope, and reach out in one witness to all. This unity has its source in the oneness of the triune God, who has adopted us as His children.”

Educators will:

- exert positive efforts to create a climate where every child feels welcomed and valued.
- actively promote the unity and equality of all.
- assist students to understand and accept the positive values that diversity provides.
- teach students by precept and example to treat others with respect.
- confront offensive statements, racial and/or ethnic slurs, ethnic jokes and any practice that erodes unity and equality.
- review the curriculum and supporting materials to provide content that honors and respects ethnic and multi-cultural diversity.
- develop and implement school policies and practices consistent with the goal of promoting cultural understanding and Christian unity.
- provide professional growth and in-service training to develop cultural awareness and understanding.
- enrich the curriculum by transmitting understandings to students about the value and benefits of ethnic and multi-cultural diversity and sensitivity.

A11-128 Statement of Philosophy for Competition in Life

Competition is a common experience in life and is present in play, work, education, economic systems and the political arena. It exists between individuals, groups and nations. There is even competition for the souls of humankind. When competition is present in appropriate settings, teachers can guide students toward the values of staying focused on a goal, perseverance, handling victory and defeat graciously, and emphasizing teamwork over individual accomplishments. If competition is friendly and organized so that every student has the opportunity at some time to win, then motivation, achievement, and interpersonal relations may be enhanced.

Competition that is allowed in the wrong setting or that is not properly managed can have negative effects. Only a few students will be able to experience success, and the tendency to make safe rather than growth choices will be increased. Students may think of academics or athletics as a means to an end (being better than others); and may become more interested in the relative positions in a class or on a team than in the performance of the team or group. In poorly managed competition, it is likely that hostility between members of the group will often develop into outward aggression.

It is, therefore, essential that in all curricular and co-curricular endeavors, actions and attitudes should be guided by higher principles. School personnel should make every effort to develop a Christ-centered, cooperative environment in which teachers and students together identify group goals, plan activities, develop communication skills, apportion responsibilities, participate in spiritual growth endeavors, and learn strategies for helping one another.

In response to appropriately-employed competitive activities, students, guided by their teachers, should seek to:

- Develop physical, mental and spiritual gifts to the fullest extent.
- Cultivate such Christian virtues as commitment, courtesy, fair play, honesty, loyalty, obedience, respect, self-confidence, and self-control.
- Manage successes and contend with failures.
- Function effectively as team members.
- Strive for excellence.

A11-132 Political Involvement [New Policy 11/2015]

The Adventist Church has a long-standing position of not supporting or opposing any candidate for elected office. This position is based on the Church's historical position of separation of Church and State, as well as applicable federal law relating to church tax exemption. Schools must remain neutral on all candidates for office and school employees must exercise care to avoid using their position as a teacher or a denominational employee to advocate for or against any particular candidate for elective public office.

Students may be required or allowed to participate in campaigns for candidates for elected office as part of an educational activity of the school. Students must not be assigned to particular candidates or political parties and the assignment may not otherwise favor any particular candidate or political party.

The progress report is to be submitted on or before April 1, including details of the implementation of the stipulations as voted by the union board of education.

An onsite visit shall be conducted each of the two years of the probationary period following receipt of the annual progress report. The committee shall be composed of the local superintendent and/or associate(s) and a representative from the union office of education. E. Periodic Review of Authorization

The approval status of an extension school is to be reviewed once each three years to determine:

B. Meetings of the Constituency

The school constituency is to meet annually or as specified in the school constitution.

C. The functions of the constituency are to:

THE SCHOOL BOARD | A17

A17-104 The School Board

In each school in the union there shall be organized a school board elected by the church(es) of the school constituency.

The school board should meet at a regular time and place during the school year and as often as needed during the summer months.

School board meetings are open meetings, except when sensitive topics are being discussed. In this instance, the board chair may call for an executive session, which is a closed meeting of the board when only the regular and ex officio members are present. The board may, however, invite interested persons to be present to provide needed information. However, such persons should be excused prior to discussion and vote by the school board.

A17-108 School Board Membership [Revised 11/2012; 12/2019]

The school constitution and/or working policy should contain provisions regarding the membership of the school board that meets the following criteria.

The school board shall be composed of members of the Seventh-day Adventist Church who represent a cross section of the school constituency and who are supportive of Seventh-day Adventist education. This membership is to include as voting members the chair, vice-chair, executive secretary (the principal), and pastoral representation from the constituent church(es) based on the school constitution/working policy. In addition the board is to include the following as ex officio voting members: local conference officers and local conference and union office of education personnel.

The school board members (other than ex officio members) are to be elected by the constituent church(es) in accordance with the school constitution or working policies. The church(es) should ensure that multiple members of the same family (related by blood, adoption, or marriage) are not elected to the same school board.

Board membership of school employees and/or their relatives (related by blood, adoption, or marriage) has the potential to create misunderstanding and the appearance of vested interest, especially on personnel issues regarding colleagues. School employees and/or their relatives are ineligible for membership on the board of the school where employed. This policy does not prohibit a person from serving on the board of a small school when that person is employed part-time as school treasurer and is not a regular school employee.

A17-112 Functions of the School Board [Revised 11/2012; 4/2015; 4/2018]

Actions of the board are implemented through its executive secretary, the principal. In schools without a designated administrator, the board actions are implemented through the chair in counsel with the local superintendent of schools or designee.

- C. Permissive Causes [Revised 11/2014; 4/2015; 12/2018]

The following actions may form the basis for expulsion when the principal or school committee, considering the totality of circumstances including the history of the student, determines the student is not amenable to improving behavior and the student's continued presence constitutes a threat to the safety and/or welfare of the other students or a substantial disruption of the school environment.

1. Major or repeated theft at school.
2. Possession and/or use of controlled substances including alcohol and tobacco, especially continued use after attempt to assist the student has failed.

11. Sexual misconduct or the encouragement or advocacy of any form of sexual behavior that would undermine the Christian identity or faith mission of the Seventh-day Adventist Church.

In addition, a student may be expelled when the principal, appropriate school committee, or school board, considering the totality of circumstances, include the history of parental or guardian conduct, determines: 1) that a parent or guardian's and/or school employee's misconduct is serious enough to constitute a threat to the safety and/or welfare of students, a substantial disruption of the school environment, and/or a serious violation of a generally accepted practice or tenet of the Seventh-day Adventist Church; and 2) the parent or guardian is not amenable to improving behavior.

D. Procedure [Revised 12/2018]

The principal or school committee makes a recommendation of expulsion to the school board. The student and parents/legal guardian shall be notified of the recommendation and of the right to a hearing.

2. The fact that expulsion is being recommended.

A23-156 Student's Withdrawal or Severance from School

Following the withdrawal or severance of a student who is required by state law to be enrolled in school, the school principal is to ascertain that the student has entered another school as stipulated by state law. If the student fails to do this within the required time period, it is the responsibility of the school principal to notify the attendance officer of the local public school district.

Following the withdrawal or severance of any non-resident student enrolled on a student visa, it is the responsibility of school administration to notify the appropriate immigration officials according to current immigration law.

A23-160 "Hazing" of Students

No staff member, student, or any other person employed by or in attendance at a Seventh-day Adventist school shall concur with, cooperate, permit, or participate in any act that injures, degrades, or disgraces, or tends to injure, degrade, or disgrace any student attending the school.

Each school shall adopt a sexual harassment policy. The policy shall include a definition of sexual harassment and procedures for reporting sexual harassment. In addition, each school shall adopt administrative guidelines for investigating and responding to reports of harassment.

Each school's written policy shall be published in the student handbook or bulletin which is distributed to students.

A copy of the school's policy regarding sexual harassment shall be displayed in a prominent location in the administrative building or other location where such notices are posted for students.

[A *Model School Policy - Student Sexual Harassment, and Guidelines for Responding to Student Sexual Harassment Complaints* are available from the local conference office of education.]

A23-168 Model School Policy for Student Sexual Harassment [Revised 11/2014]

_____ (name of school) _____ is committed to providing a school environment free from sexual harassment for all students. Incidents of harassment should be reported in accordance with these procedures so school authorities may take appropriate action. Students who sexually harass others are subject to discipline, up to and including dismissal. Employees who engage in sexual harassment are subject to discipline, up to and including termination.

A23-168 Model School Policy for Student Sexual Harassment (Cont'd)

Definition: Sexual harassment is unwelcome sexual advances or requests and other conduct of a sexual nature which is offensive. Harassment can be spoken, written, physical and/or distributed through electronic means. It includes offensive pictures, graffiti, jokes, and gestures.

If submission to offensive sexual conduct is made a condition of academic status, progress, benefits, honors, or activities, it is prohibited sexual harassment. Sexual harassment also occurs when the offensive behavior or material creates a hostile school environment.

Reporting Procedures: Students who have experienced sexual harassment shall report the incident to school authorities as soon as possible. If the harassment is between students, the student shall report the incident to the classroom teacher in grades K-8 or to any teacher in grades 9-12. The student may also report to the principal, vice-principal or counselor.

If the harassment comes from an adult, the student should report directly to the principal or another responsible adult.

A23-170 Guidelines for Responding to Student Sexual Harassment Complaints

Several principles should guide the school in appropriately responding to a sexual harassment complaint.

- A. Take the complaint seriously. Investigate privately and keep notes.
- B. The investigation and response should be age-appropriate.
- C. Discipline should fit the behavior and the age of the offender. Progressive discipline should be used, unless the first offense is of a serious nature.
- D. Educating students regarding sexual harassment is the cornerstone of prevention.

Sexual harassment is sometimes categorized legally into two categories, quid pro quo and hostile environment. Of the two, quid pro quo is considered the most serious, but both types should be taken seriously. Quid pro quo is where sexual favors are requested or demanded in return for benefit. Hostile environment is where jokes, pictures, comments, gestures, or stares create a school environment that is hostile and offensive to the victim.

Complaints of sexual harassment should be investigated promptly and confidentially. Corroborating evidence is helpful in determining the truthfulness of the complaint. False accusations, occur that may be a form of sexual harassment.

Appropriate discipline can range from education and teacher counseling to expulsion. Often it is well to get the perspective of an adult of the same sex as the victim when evaluating the seriousness of the event. The response should fit the behavior and be age-appropriate. For instance, a joking remark that is an isolated event could be handled by a teacher talking to the offending student, explaining the significance of the remark, and asking the student not to repeat it. On the other hand, offensive touching is much more serious and in some cases is a criminal offense reportable as child abuse. Suspension and possibly expulsion may be the appropriate response. Adult to student sexual harassment is more serious and calls for a stronger response. Sometimes retaliation, open or subtle, is used against the victim. The offender should be warned this will not be tolerated.

At times no clear determination can be made as to the truthfulness of accusations. In those cases if the reported behavior is not extremely serious, the suspected offender should be told such behavior, if it occurred, is offensive and will not be permitted.

After the investigation and response, the victim should be informed that appropriate corrective action has been taken and the victim encouraged to report any further events.

1. The necessary courses or programs are not available at either La Sierra University or Pacific Union College.
2. A person newly employed in the union is currently enrolled in a degree program at a college/university in the union where formerly employed and a transfer would entail hardship or loss of credit.

C. Attendance at Non-Seventh-day Adventist Institutions

Education personnel who are authorized to attend non-Seventh-day Adventist institutions, if the necessary courses or programs are not available at La Sierra University or Pacific Union College, may receive reimbursement for mileage or the lowest air fare, whichever is less, plus tuition and fees. No additional salary is granted for attendance at summer school.

A certificated employee from another union newly employed in the union who is currently enrolled in a study program elsewhere, may, upon board approval, be permitted to complete work where enrolled if a transfer would entail hardship or a loss of credit. In such a situation, the employee is to receive benefits from the employing organization equal to those granted to personnel enrolled at La Sierra University or Pacific Union College.

Written authorization including information on any financial assistance that will be granted is to be received prior to registration.

A25-120 Deans' Leave and Vacation Time

Secondary school principals shall arrange for full-time residence hall deans to be relieved from duties on the regularly scheduled weekend leaves, or for corresponding time the weekend before or after the scheduled leave. The weekend of Christmas or New Year's vacation shall be considered a weekend leave as well as the weekend of spring vacation. (A weekend leave is generally considered a three day weekend, Friday through Sunday.)

When the Christmas recess and spring vacation are taken as vacation time, this is to be counted as two weeks of the total annual earned vacation time.

Schools that do not have need for a dean during the summer months may employ a dean on the 42-week schedule. Release time for weekend leaves will follow the same policy as those employed on the 52-week schedule.

A25-124 Leaves

For information regarding employee leaves such as: bereavement, jury duty, family and medical, leave of absence, personal, or sick, refer to the local conference policy.

A25-128 Calls for Education Personnel

The following protocols relate to the contacting of and/or placing calls to education personnel.

An educational institution or local conference that may have interest in placing a call for an education employee employed by another denominationally operated K-12 school or college/university, shall observe the following procedure. Informal contacts to ascertain possible interest by an employee in accepting a call to another institution or conference may be pursued without permission of the current employer. When an administrator is at the point of obtaining formal references or interviewing a prospective education employee, the prospective employee's current administrator or local conference office of education must be notified. The prospective employer must be careful to enquire from the current or previous employer of possible indebtedness according to *NAD Working Policy E 45 72*.

If a prospective employee has not signed an employment agreement with the current employer for the next year, another educational institution or local conference is free to offer the prospective employee an employment agreement without the current employer blocking the call. However, if the employee has signed an employment agreement for the next school year with the current employer, the calling party must have the consent of the administrator or local conference office of education before contacting an employee for an interview or placing a call.

Every effort should be made on the part of the school administrators to cooperate with the General Conference in filling emergency overseas calls which may arise at any time for teachers or employees working in denominational schools.

- A. A calling organization is responsible for obtaining information regarding an employee's financial indebtedness with the current employing organization.

The former organization will carry the salary until a transfer date is agreed upon by the two organizations. Salary for the new school year which has been advanced is to be reimbursed to the former employing organization.

A25-136 Teaching Certificate [Revised 5/2013; 12/2019]

Denominational certification is the process whereby a person is recognized to be academically and professionally qualified to teach in Seventh-day Adventist schools. A teaching certificate with its endorsement(s) indicates that the individual has completed the qualifying requirements to practice the professional instruction of children and youth in a Seventh-day Adventist school setting.

Qualifying for the appropriate certificate and maintaining it through continued professional preparation and growth is the responsibility of a professional educator.

The NAD Board of Education establishes certification requirements for education personnel.

Details regarding certification are contained in the booklet *K-12 Educators' Certification Manual for North American Division and the Pacific Union Conference addendum*. A copy is available from the local conference office of education.

Issued to employees with limited experience (less than five years) including regularly employed classified school employees.

A25-144 Conflict of Interest and/or Commitment [Revised 11/2009]

A. Statement of Policy

Conflict of interest shall mean any circumstance under which an employee or volunteer by virtue of financial or other personal interest, present or potential, directly or indirectly, may be influenced or appear to be influenced by any motive or desire for personal advantage, tangible or intangible, other than the success and well-being of the denomination.

Because of the common objectives embraced by the various organizational units and institutions of the Seventh-day Adventist Church, membership held concurrently on more than one denominational committee or board does not of itself constitute a conflict of interest provided that all the other requirements of the policy are met. While serving as an officer, trustee, or director of multiple denominational entities is thus acknowledged and accepted, an officer, trustee, or director serving on an organization's board is expected to act in the best interest of the organization and its role in denominational structure.

A conflict of commitment shall mean any situation which interferes with an employee's ability to carry out duties effectively. Elected, appointed, or salaried employees on full-time assignment are compensated for full-time employment; therefore, outside or dual employment or other activity, whether compensated or not, that in any way interferes with the performance of an employee's duties and responsibilities is a conflict of commitment. A conflict of commitment also exists in situations where an employee functions contrary to the values and ethical conduct outlined in the organization's statement of ethical foundations and conduct or when an employee functions contrary to established codes of ethical conduct for employees in particular professions (e.g. legal, investments).

A25-144 Conflict of Interest and/or Commitment (Cont'd)

All trustees, officers, board members, employees, and volunteers of denominational organizations shall be subject to this policy.

B. Conditions Constituting Conflict

A trustee, officer, board member, employee, or volunteer has a duty to be free from the influence of any conflicting interest or commitment when serving the organization or representing it in negotiations or dealings with third parties. Both while on and off the job an employee is expected to protect the best interests of the employing organization. The following list, though not exhaustive, describes circumstances and conditions that illustrate conflict of interest or commitment:

1. Engaging in outside business or employment that encroaches on the denominational organization's call for the full services of its employees even though there may be no other conflict.
2. Engaging in business or employment that is in any way competitive or in conflict with any transaction, activity, policy, or objective of the organization.
3. Engaging in any business with or employment by an employer that is a supplier of goods or services to any denominational organization.
4. Making use of the fact of employment by the denominational organization to further outside business or employment, associating the denominational organization or its prestige with an outside business or employment or using one's connection to the denomination to further personal or partisan political interests.
5. Owning or leasing any property with knowledge that the denominational organization has an active or potential interest therein.
6. Lending money to or borrowing money from any third party, excluding financial institutions, who is a supplier of goods or services or lending to/borrowing from a trustor or anyone who is in any fiduciary relationship to the denominational organization or is otherwise regularly involved in business transactions with the denominational organization.
7. Accepting or offering of any gratuity, favor, benefit, or gift or of any commission or payment, monetary or non-monetary, of greater than nominal value, in connection with work for the denominational organization other than the compensation agreed upon between the denominational organization and/or the employee.
8. Making use of or disseminating, including by electronic means, any confidential information acquired through employment by the denominational organization for personal profit or advantage directly or indirectly.
9. Using denominational personnel, property, equipment, supplies, or goodwill for other than approved activities, programs, and purposes.
10. Expending unreasonable time, during normal business hours, for personal affairs or for other organizations, to the detriment of work performance for the denomination.
11. Using one's connections within the organization to secure favors for one's family or relatives.
12. Employees shall not accept loans from church members or churches.

A25-144 Conflict of Interest and/or Commitment (Cont'd)

C. Statement of Acceptance

1. By Employees

At the time of initial employment an employee shall sign a statement indicating acceptance of the conditions of employment as outlined in the organization's employee handbook. This acceptance shall constitute the employee's declaration of compliance and resolve to remain in compliance with the conflict of interest and/or commitment policy. On an annual basis the employer shall provide employees with a copy of the Statement of Ethical Foundations, plus a copy of the conflict of interest and/or commitment policy, and shall inform employees regarding the duty to disclose potential conflicts of interest and/or commitment.

2. By Administrators, Department Directors and Trustees

The administrator or designee, of the organization concerned shall receive annually a statement of acceptance and compliance with the policy on conflict of interest and/or commitment from each administrator, department director, member of the board, and any other person authorized to handle resources of the organization. (The employing organization may determine that other individuals shall also be required to submit annually a statement of acceptance and compliance.) Submission of the statement by persons identified above shall constitute a declaration of compliance with the policy and shall place the individual under obligation to disclose potential conflicts of interest and/or commitment that may arise during the ensuing year.

3. All statements of acceptance and compliance shall be reviewed annually through a process and reporting mechanism as determined by the board/executive committee of the organization.

D. Reporting Potential or Actual Conflicts of Interest or Commitment

All present and potential conflicts of interest must be disclosed:

1. If known, in advance of any meeting, business transaction, or other activity at which the issue may be discussed or on which the issue may have a bearing on the person's approach to the issue, whether directly or indirectly; or
2. If not known in advance, when the actual, possible, or potential conflict becomes apparent. Disclosure must be made to the person in charge of the meeting or activity and to the full meeting, or to the person's supervisor, as appropriate. The person should leave the room or situation to avoid participation in all discussion or deliberation on the issue, and voting. All such actions should be recorded in any minutes or records kept. Following full disclosure of the present or potential conflict, the board or equivalent group may decide that no conflict of interest exists and invite the participation of the person.

This policy establishes a process which is self-identifying. However, third parties may report alleged conflicts in writing with supporting documentation, to an officer of the organization concerned if the employee fails to disclose a conflict or does so inadequately. The source of the third party reports shall be held in confidence by the recipient unless it is required to divulge the information pursuant to a court order or if there is indication that the report is fraudulent or made with malicious intent.

A25-144 Conflict of Interest and/or Commitment (Cont'd)

E. Review Process for Conflicts of Interest and/or Commitment

The officer or human resource/personnel office that receives the report of potential conflict shall inform the employee's supervisor and shall have the matter reviewed by the appropriate employing authority or by the committee assigned to review such matters. If the disclosure has come from a third party, the officer or human resource/personnel office shall inform the employee concerned and shall give the employee an opportunity to submit any information which may help in the review of the reported conflict. The decision of the employing authority or review committee as to whether or not a conflict exists shall be communication to the employee in writing.

F. Sanctions for Noncompliance

Noncompliance includes failure to:

1. Comply with this policy;
2. Report accurately on the disclosure form;
3. Comply with decisions made by the employing authority or review committee as a result of reported potential or actual conflicts of interest and/or commitment.

Noncompliance may result in disciplinary action, up to and including termination from employment. Termination from employment shall be processed in harmony with existing policies.

G. Model Statement of Acceptance

[See *NAD Working Policy E 85 40* for the "Model Statement of Acceptance".]

RECORDS MANAGEMENT | A26

A26-104 School Records [Revised 11/2012; 11/2014; 11/2016; 10/2018; 4/2020]

A. Records Management [Revised 11/2012]

The normal operation of the school results in the production and the accumulation of a large volume of files and records of varying degrees of administrative and historical value. In order to preserve documents of permanent value and to avoid the unnecessary preservation of unneeded materials, each school will find it advantageous to establish a records management system.

The administrators, business managers, and other employees in all organizations should evaluate the legal, financial, and cultural worth of various types of files and records produced in all offices. The political unrest through which the world is constantly passing seriously effect property rights, for example, and demand the proper preservation of denominational property records. Corporate papers and board minutes not only tell the history of an organization but may be called upon in case of litigation. Many other documents and general files that seem to be of little value beyond the initial retention period grow rapidly in historical value as time passes and may serve future administrators in re-studying issues and problems

B. Records Retention [Revised 11/2014; 11/2016; 10/2018]

1. Each school should establish a records center, that is, a storage place to protect documents from fire, deterioration and unauthorized access.
 - a. The record center should have non-current documents or files designated for either short term or permanent storage. The record center should not be used for the storage of current files, that is, those that are consulted several times a year in a normal course of business.
 - b. Documents and files stored in the records center awaiting later destruction shall be boxed in such a way as to make clear the dates of destruction under the provision of a records retention schedule approved by the local conference office of education.
 - c. Documents and files considered to be permanent, may be kept in hard copy or microform at the discretion of the local conference office of education. Storage may be in the same storage facility with less permanent items, but should be physically separated and clearly labeled.
 - d. Schools or conferences with sizeable collections of records, aged fifty years or older, shall make provision to create an historical archive, where measures can be taken for long-term preservation and for making documents accessible to researchers.
2. The following retention schedule should be used for the specific types of school records listed.

A26-104 School Records (Cont'd)

A26-104 School Records (Cont'd)

If a new elementary school, junior academy, or secondary school succeeds one that is discontinued, the old records are to be transferred to the new school, otherwise, such records are to be transferred to the local conference office of education.

D. Ownership of Records [New Policy 11/2016]

The local conference office of education shall adopt a policy regarding the ownership of records, files and documents created by the employee in the course of employment. Such a policy shall include parameters for which records, files, and documents shall remain at the school. The term "records" includes, but is not limited to, information recorded on or transmitted by paper, film, audio and video tape, email, or other electronic media or sound media, as well as charts, drawings, and maps. Such a policy should exclude materials closely related to an employee's professional career or graduate education.

A26-120 Access to Student Records

Parents of currently enrolled or former students and students 18 years or older have the right of access to the cumulative and permanent student records maintained by the school relating to the children in the family or the individual student.

Each local conference shall adopt procedures to grant requests by parents to inspect and review records during regular school hours. Access shall be granted no later than five days following the date of the request. The procedures shall include notification to the parent of the location of all official student records, if not centrally located, and providing qualified certificated personnel to interpret records where appropriate.

A26-124 Health Records – Employees [New Policy 11/2016]

Health records are maintained at the employee's payroll center or the local conference office of education. The records shall be kept in a file separate from the personnel files.

GENERAL ADMINISTRATIVE POLICIES | A27

A27-104 Major Fund Raising Projects

Major fund raising projects are to have local school board approval.

A27-108 Safety of Students on Campus [Revised 5/2014; 11/2016]

Each local conference office of education should develop student health and safety policies in compliance with state law as they apply to private schools.

A. Drills

Safety drills should be effectively conducted throughout the school year as required by state and local law and at a minimum should include fire drills, earthquake drills, and lockdown drills.

B. Emergency Planning

Each school shall have an annually updated Emergency Plan in place and should review it with staff at the start of each school year. Ensure that the plan addresses natural hazards, technological hazards, biological hazards, and adversarial, incidental, and human-caused threats. It shall address prevention/ protection, mitigation, response, and recovery.

C. First Aid Equipment and Emergency Supplies

Every classroom should have a small first aid kit containing supplies regularly used in the classroom throughout the year. Some emergency supplies should also be kept in each classroom. Additionally there should be a cache of supplies (water, first aid, sanitation supplies, tools, food, etc.) for the whole school.

See supply lists recommended by the Red Cross at:
www.redcross.org/disaster/masters/supplies.html.

A majority of the teachers in each school should have current First Aid and CPR certification.

A27-112 Labor Laws and Work Permits

All employing organizations shall comply with state and federal regulations governing the employment of minors.

A27-116 Flight Safety

Schools operating flight training programs shall conform to the *NAD Working Policy*.

A27-120 School Bus Safety and Operations

- A. The definition of church, camp, and school buses includes all vehicles designed for nine or more passengers, excluding the driver.
- B. Buses shall be used only for official activities of the Seventh-day Adventist Church and shall not be loaned, leased, or rented to individuals or nondenominational organizations.
- C. Pre-1977 buses shall not be purchased or otherwise obtained. It is recommended that currently owned pre-1977 buses should be removed from the fleet. [See *NAD Working Policy S 60 31.*]
- D. The maintenance of school buses and the driver qualifications shall meet state regulations.

A27-124 Identification of “Seventh-day Adventist” Institutions

Denominationally-owned and operated educational institutions in the union should identify themselves as Seventh-day Adventist institutions.

Privately-owned institutions are to refrain from the use of denominational names such as “Seventh-day Adventist,” “SDA” or “Adventist” in nomenclature and promotion.

A27-128 Infectious Blood Borne Diseases Policy

A. Preamble

The schools shall strive to protect the safety and health of students.

The evidence is overwhelming that the risk of transmitting infectious blood borne disease, including but not limited to human immuno-deficiency virus (HIV), acquired immuno-deficiency syndrome (AIDS), and Hepatitis B and C, is extremely low in school settings when current guidelines are followed. The presence of a person living with or diagnosed with a blood borne infection poses no significant risk to others in school or school athletic settings.

The Christian response to someone with an infectious, blood borne disease should remain personal, compassionate, helpful, and redemptive.

B. School Attendance

A student with an infectious, blood borne disease shall be given the same opportunity to attend school as any other student, and will be subject to the same rules and policies. Any decision that would affect a student’s attendance or participation in any school-sponsored activity shall be based on the same criteria as for any other chronic health problem and shall be made in consultation with the student’s physician and parent or guardian and shall respect the student’s and family’s privacy rights.

C. Employment

The schools of the union do not discriminate on the basis of HIV infection or association with another person with HIV infection. In accordance with the Americans with Disabilities Act of 1990, an employee with an infectious, blood borne disease is welcome to continue working as long as able to perform the essential function of the position, with reasonable accommodation.

A27-128

Infectious Blood Borne Diseases Policy (Cont'd)

D. Privacy

Pupils or staff members are not required to disclose HIV infection status or any other medical information to anyone in the educational system. HIV antibody testing is not required for any purpose.

All personal health information, including that related to blood borne infections, is confidential. No information regarding a person's HIV status will be divulged to any individual or organization without a court order or the informed, written, signed, and dated consent of the person with HIV infection (or the parent or legal guardian of a minor). The written consent must specify the name of the recipient of the information and the purpose of the disclosure.

All health records, notes, and other documents that reference a person's HIV status will be kept under lock and key. Access to these confidential records is limited to emergency medical personnel and to those whose names appear in written permission from the person (parent or legal guardian). Information regarding HIV status will not be added to a student's permanent educational or health record.

E. Infection Control

All employees are required to consistently follow infection control guidelines in all settings and at all times, including playgrounds and field trips. Schools will operate according to the standards promulgated by the U.S. Occupational Safety and Health Administration (US-OSHA) for the prevention of blood borne infections. Equipment and supplies needed to apply the infection control guidelines will be maintained and kept reasonably accessible.

A school staff member is expected to alert the person responsible for health and safety issues if a student's health condition or behavior presents a reasonable risk of transmitting an infection.

If a situation occurs at school in which a person might have been exposed to an infectious agent, such as an instance of blood-to-blood contact, school authorities shall counsel that person (or if a minor, alert a parent or guardian) to seek appropriate medical evaluation.

F. HIV and Athletics

School authorities will make reasonable accommodations to allow students living with HIV infection or other infectious blood borne diseases to participate in school-sponsored physical activities. General health, not HIV status, will help determine a student's eligibility for participation in athletic activities.

Physical education teachers and athletic program staff will be instructed in first aid and injury prevention, including implementation of infection control guidelines.

G. HIV Prevention Education

The goals of HIV Prevention education are to promote healthful living and discourage the behaviors that put people at risk of acquiring infectious blood borne diseases. The educational program will:

1. Be taught at every grade level, 7 through 12.
2. Be consistent with Seventh-day Adventist standards.
3. Follow content guidelines prepared by the Centers for Disease Control and Prevention.

A27-128 Infectious Blood Borne Diseases Policy (Cont'd)

4. Build knowledge and skills from year to year.
5. Stress the benefits of abstinence from sexual activity and drug use.
6. Include accurate information on reducing risk of infectious blood borne diseases.
7. Address students' personal concerns.
8. Involve parents and families as partners in education.

Parents and guardians will be given opportunity to preview curricula and materials to be used in instruction of infectious blood borne disease prevention. If a parent or guardian submits a written request to a principal that a student not receive instruction in specific infectious blood borne disease prevention topics at school, the student shall be excused without academic penalty.

H. Hepatitis B Vaccination

Any employee considered to be at risk of acquiring Hepatitis B due to an occupational exposure to blood borne pathogens, will be given opportunity to be vaccinated with Hepatitis B vaccine at no charge to the employee.

If an exposure to blood borne pathogens should occur, a comprehensive post-exposure evaluation and follow-up process will be followed to ensure that employees receive the best and most timely treatment.

A27-132 Infectious Blood Borne Diseases Policy for Employees

See the following for the policy related to Infectious Blood Borne Diseases for employees.

- A. Infectious Blood Borne Diseases Policy – Certificated Personnel
[See Section E10-196.]
- B. Infectious Blood Borne Diseases Policy – Classified Personnel
[See Section E18-152.]

A27-136 Volunteers – Screen Policies [New Policy 3/2012; Revised 5/2013]

It is the responsibility of the school to select, screen and manage trustworthy individuals to fill volunteer positions for school activities. The local conference office of education, in conjunction with conference administration, must develop a policy for the selection, screening, and training of volunteers. [See *NAD Working Policy* FB 25.]

GRADES TK-12 CURRICULUM | C10

C10-104 Definition of Curriculum

Curriculum taught in NAD Seventh-day Adventist schools is based on the Word of God, is rooted in the belief that God created us with minds that can grasp spiritual and intellectual truths, and places first leading the student to accept Christ as personal Lord and Savior. With some common learning as a core, it is a dynamic, evolving, emerging plan for the education of children and youth in terms of physical, mental, spiritual, and social needs, in a continuously changing local, national, and world community. The curriculum stresses educating students for life of worship, growth and service, places a high estimate on the worth of the individual student, and dictates that Seventh-day Adventist Christian values be developed in every subject at all grade levels.

The Seventh-day Adventist system of education defines curriculum as all learning experiences, both formal and informal, recognizing the value of integrating the home, school, and church. The Adventist curriculum is developed by integrating spiritual values with rigorous academic standards for all content areas.

The goals for curriculum in Seventh-day Adventist schools are included in the *Journey to Excellence* framework developed by the NAD.

1. Acceptance of God – Each student will surrender one’s whole life to God; develop a relationship with Jesus Christ; and allow the Holy Spirit to work in one’s life.
2. Commitment to the Church – Each student will desire to know, live, and share the message and mission of the Seventh-day Adventist Church.
3. Interpersonal Relationship – Each student will develop a sense of self-worth, skills in interpersonal relationships, an understanding of the responsibilities of family membership, and the ability to respond with sensitivity to the needs of others.
4. Responsible Citizenship – Each student will develop an understanding of cultural and historical heritages, affirm a belief in the dignity and worth of others, and accept responsibility for local, national, and global environments.
5. Healthy Balanced Living – Each student will accept personal responsibility for achieving and maintaining optimum physical, mental, and spiritual health.
6. Intellectual Development – Each student will adopt a systematic, logical, and biblically-based approach to decision-making and problem-solving when applied to a developing body of knowledge.
7. Communication Skills – Each student will recognize the importance of effective communication and develop the requisite skills.
8. Personal Management – Each student will function responsibly in the everyday world, using Christian principles of stewardship, economy, and personal management.

C10-104 Definition of Curriculum (Cont'd)

9. Aesthetic Appreciation – Each student will develop an appreciation of the beautiful, both in God's creation and in human expression, while nurturing individual ability in the fine arts.
10. Career and Service – Each student will develop a Christian work ethic with an appreciation for the dignity of service.

Curriculum materials prepared under the sponsorship of and adopted by the NAD and union offices of education are basic to the structure for learning experiences.

C10-108 Spiritual Activities

Spiritual activities are an essential part of Seventh-day Adventist education. Spiritual activities include events such as:

- A. Weeks of Spiritual Emphasis.
- B. Spirit of Prophecy Emphasis.
- C. Student Bible Study and Prayer Groups.
- D. Chapels and Assemblies.
- E. Vespers.
- F. Student-led Church Services.
- G. Retreats.
- H. Mission Trips.
- I. Community Service Activities.

These activities should be organized to encourage maximum student participation. [See Section A11-120.] These activities should serve as additional opportunities for staff members to provide spiritual mentoring for students. Students should regularly be given the opportunity to make a decision for baptism and/or rededication to Jesus Christ.

GRADES TK-12 GENERAL PROVISIONS | C11

C11-104 Patriotic Activities

Each school is to include patriotic activities as an integral part of the school program. This includes the flag salute, singing of the national anthem at appropriate times and the commemoration of national holidays.

C11-108 Home Visitation

Administrators should encourage and make provision for home visitation of students and parents by school staff.

C11-112 Student Organizations

All student organizations and student-conducted cultural, social, and recreational activities shall be under direct supervision of the school staff. A faculty sponsor must be appointed for each organization or activity.

C11-116 School-Sponsored Public Functions

Public functions such as student rallies, class night, graduation, and all other activities for which the school bears direct or indirect responsibility shall:

- A. Be conducted in accordance with recognized principles of correct decorum.
- B. Conform to the standards and principles of Seventh-day Adventist schools.
- C. Be free from objectionable features in subject and in presentation.

C11-120 Graduation Honors

The designations, valedictorian and salutatorian, of a graduating class are not to be given. Graduation honors are to be based on criteria developed by the faculty and approved by the school board.

C11-124 Annual School Calendar

- A. Union Model School Calendar

The union model school calendar is adopted annually by the union board of education and consists of the following:

C11-124 Annual School Calendar (Cont'd)

1. Teacher-Student Contact Days

A total of 180 student-teacher contact days is the basic requirement. [See Section C11-128.A. for the definition of “student-teacher contact days”.] Instructional activities and tours that may be counted as teacher-student contact days are listed in Section C11-128.B.

2. Related Activity Days

Related activity days as approved by the local conference office of education may be scheduled for the following: registration (one day); teachers' convention and/or in-service; teacher visitation; parent-teacher conferences. (Parent-teacher conferences may be scheduled in connection with a minimum school day.)

3. Guidelines for Exceptions

When a school or local conference desires to implement a new curricular program that requires more teacher in-service and follow-up than can be scheduled during pre- and post-sessions of the regular school year, application may be made to the local conference board of education for permission to modify the 180 teacher-student contact day requirement. The following criteria shall be used in determining eligibility for the modified yearly calendar.

- a. The request shall be for no more than a five day reduction in the number of teacher-student contact days. In no case shall the number of teacher-student contact days be less than 175.
- b. A reduction from the 180 teacher-student contact days shall be approved annually.
- c. A rationale for reducing the teacher-student contact days is to be submitted to the local conference board of education as a part of the application process.
- d. The days for the staff development activities shall be for a specifically stated, planned program.
- e. Specific dates for the staff development activities shall be requested.
- f. The planned staff development activities for each day shall be specified, including speakers or facilitators, if used.
- g. Approval for the calendar adjustment shall be approved by the local conference board of education with written notification submitted to the union office of education.

B. Local Conference Model School Calendar

Each local conference board of education is to adopt a school calendar based on the union model.

C. Local School Calendar

Each school is to follow the local conference adopted school calendar. Proposed modification in the calendar to meet the needs of a school must be approved by the local conference board and/or office of education.

C11-128 Teacher-Student Contact Day

An official teacher-student contact day is one that meets the following criteria:

1. Planned and organized learning experiences are implemented.
2. Direction and supervision is provided by a qualified teacher.
3. Specific educational objectives and/or goals are to be achieved.
4. Student attendance is required.
5. The session is scheduled as a minimum school day subject to the following:

1. Bible conferences.
2. Outdoor school.
3. Witnessing/Service activities.
4. Educational field trips.
5. Track and field activities.
6. School picnic.

C11-132 *Guidelines for Activities with Elements of Competition*

Schools may be provided opportunities to develop potential in students for physical, mental, and spiritual acuity through activities with elements of competition. While these activities, when carefully planned and activated, may accentuate the highest Christian principles and standards, there is potential for the development of rivalry and ill-will. Contests, athletic activities, and competition for grades and honors, all are susceptible to misuse.

For guidelines in planning competitive activities, see: *Guidelines for Activities with Elements of Competition*, General Conference of Seventh-day Adventist, 1976 and/or *Guidelines for Seventh-day Adventist Athletics*, SDA-HPERA, 2003. Both publications are available from the union office of education.

C11-136 Statement on the Teaching of Literature in Seventh-day Adventist Schools

Literature in general sets forth impressions of the world, as well as aspirations, deeds, thoughts, and accomplishments, whether good or bad. Literature selected, in particular for Seventh-day Adventist schools, should lead to the development of the whole person. It may be expressed through poetry or prose; it may be factual or non-factual; it may be drawn from secular or spiritual sources. It will give a comprehensive view of the universe, help solve fundamental problems, and answer questions on the origin, nature, and destiny of man while emphasizing the true, the honest, and the beautiful.

The teaching of literature in Seventh-day Adventist schools should give primary emphasis to character building. It should transmit the spiritual ideals, beliefs, attitudes, and values of the church, and furthermore should encourage thoughtfulness, exemplary citizenship and loyal, conscientious Christianity.

C11-140 Statement on Seventh-day Adventist Philosophy of Music

God has woven music into the very fabric of creation. Because God made humans in His image, we share a love and appreciation for music with all created beings. It is one of the most effective means of impressing the human heart and soul.

Tastes in music vary greatly from individual to individual and from culture to culture. Melodies, rhythms, instruments, harmonies, lyrics and styles may vary greatly, yet the focus of the Christian should be on choosing music that is noble, uplifting, and wholesome and which appeals to both the intellect and emotions and impacts the body in a positive way.

Seventh-day Adventist music making means to choose the best and above all to draw close to our Creator and Lord and glorify him.

C11-144 Procedure for Establishing Innovative Programs

A written request must be submitted by the school to the local superintendent of schools for authorization to pursue innovative programs involving such activities as are listed in Section C11-152. For permission to institute innovative programs as listed in Section C11-152, teachers must receive authorization from the school administrator. Progress reports are to be prepared and submitted to the local superintendent of schools for evaluation.

The written request must include definitive plans outlining basic factors such as:

- A. Rationale.
- B. Objectives.
- C. Materials.
- D. Budget.
- E. Time Factor (length of trial period).
- F. Description of Course or Activity.
- G. Evaluation Plans.

C11-148 Distance Education

All educational entities that provide elementary and secondary school programs and desire to offer distance education courses are required to follow the procedures listed in the document entitled "*Distance Education Policies, Standards, and Guidelines K-12*" available from NAD office of education.

C11-152 Approval of Innovative and/or Alternative Programs [Revised 4/2020]

Proposed innovative and/or alternative activities and programs are to be approved prior to implementation. [See Section C11-144 for the procedure for establishing innovative or alternative programs.]

- A. The following are activities which require approval of the school administration:
 - 1. Adjustments in schedules in which the basic time requirements are not altered.
 - 2. Adoption and use of supplementary materials.
 - 3. Adoption of special teaching methods.
 - 4. School in-service sessions for staff members.
- B. The following are types of activities or proposals which require local conference and/or union approval:

C15-104 Admission Policies (Cont'd)

D. Admission of Non-Adventist Students

Seventh-day Adventist education as a two-fold mission. The school's primary role is to educate and to spiritually strengthen Seventh-day Adventist students. ELEMENTARY SCHOOL EVALUATING, RECORDING AND REPORTING OF STUDENT PROGRESS | C16

C16-104 Student Progress Reports

Elementary schools are to use a student progress report form approved by the local conference office of education. Information is to be provided regarding the student's subject-area progress, attendance, citizenship, and social relationships.

The student progress reports are to be distributed at the close of each nine-week period. There should be provision for at least two parent-teacher conferences during the school year.

C16-108 Forms for Reporting Student Progress

The following factors shall be included in the development of forms for reporting student progress prior to requesting approval [See Sections C16-104 and C16-112.]:

C16-114 Grade Reporting [New Policy 4/2016]

When reporting the progress of students, the following definitions must be considered:

Examples of accommodations include using alternative forms of textbooks (Braille, audio, etc.), allowing a student a different seat in the classroom, oral examinations, extra time for examinations, etc.

Students for whom accommodations are made will receive grades and credit in the same manner as students without accommodations.

- B. Modifications are any variation in the educational environment or process that fundamentally alters the content of the course based on voted content standards.

Examples of modifications include changing the learning expectations, reducing the number standards to be mastered, use of aides that interfere with the independent work of the student, etc.

Students for whom modifications are made may receive report cards which indicate progress of the student toward the goals outlined in the IEP (if one exists). However, permanent school records may not indicate that a student received special education, has a disability, or received related services. Schools may, however, indicate that the student was enrolled in a different course.

For example, at a secondary school, the US History course may be listed on the transcript as a college-prep US History course for students with no modifications. For a student with modifications, the course may be listed as an Intro to US History. Difference in grading systems (letter grade vs. pass/fail) may not be based on a student's need for special services.

If a school wishes to use symbols or codes on student report cards to indicate modified learning expectations, a policy must be developed (and approved by the local conference office of education) applying the use of symbols or codes for all students and should not be used solely for students with an IEP, learning disability or modified programs.

C16-124 Student Attendance Records – Elementary [Revised 11/2013; 10/2018]

An attendance record for each student must be kept by the elementary school using a method which has been approved by the local conference office of education.

The individual student attendance record must indicate absences from school for each day that school is in session.

The attendance record is to be maintained as a part of the student permanent record. [See Section A26-108.]

C16-128 Recommended Summer Remediation

When summer remediation is recommended for a student written documentation shall be recorded as follows:

- (1) Up to a maximum of five students may be added to a classroom (single grade, combination or multi-grade) if teacher assistant time of one hour per day for each additional student is provided.
- (2) The number of students with special needs may warrant an adjustment in the class load.
- (3) Any variation to the above policies requires the approval of the local conference office of education.

e. Student Equivalent [Revised 10/2018]

- (1) When determining student load in a combination or multi-grade classroom each transitional kindergarten, kindergarten or first grade student counts as 1 1/2 students.

Example: In a combination room 10 first graders and 12 second graders would be counted as 27 students (10 x 1.5 = 15 first graders plus 12 second graders for a total of 27 students).
- (2) The number of primary grade students in a multi-grade classroom may necessitate an adjustment in the class load and/or teacher assistant time.

JUNIOR ACADEMY CURRICULUM | C18

C18-104 Specific Provisions for the Junior Academy [Revised 4/2016]

Sections C18-108 to C20-148 contain those policies which pertain directly to grades 7-10 in a junior academy organization. It is expected that junior academies will use the NAD approved curriculum. For specific policies concerning grades K-8, see Sections C14-104 to C17-132. For specific policies for grades 9-12, see Sections C21-104 to C29-120. JUNIOR ACADEMY

ADMISSION, EVALUATION AND REPORTING OF STUDENT PROGRESS | C19

C19-104 Admission Requirements

For admission requirements to the ninth grade, see Sections C22-104 to C22-120.

C19-108 Reporting Periods

The nine-week reporting period plan is to be followed.

C19-112 Scholarship Reports

Teachers in junior academies are to report to the local conference office of education final grades, amount of credit earned, and achievement test results using the forms provided.

C19-114 Grade Reporting [New Policy 4/2017]

When reporting the progress of students, the following definitions must be considered:

- A. Accommodations are any variation in the educational environment or process that does not fundamentally alter the content of the course based on voted content standards.

Examples of accommodations include using alternative forms of textbooks (Braille, audio, etc.), allowing a student a different seat in the classroom, oral examinations, extra time for examinations, etc.

Students for whom accommodations are made will receive grades and credit in the same manner as students without accommodations.

- B. Modifications are any variation in the educational environment or process that fundamentally alters the content of the course based on voted content standards.

Examples of modifications include changing the learning expectations, reducing the number standards to be mastered, use of aides that interfere with the independent work of the student, etc.

Students for whom modifications are made may receive report cards which indicate progress of the student toward the goals outlined in the IEP (if one exists). However, permanent school records may not indicate that a student received special education, has a disability, or received related services. Schools may, however, indicate that the student was enrolled in a different course.

For example, at a secondary school, the US History course may be listed on the transcript as a college-prep US History course for students with no modifications. For a student with modifications, the course may be listed as an Intro to US History. Difference in grading systems (letter grade vs. pass/fail) may not be based on a student's need for special services.

C19-114 Grade Reporting (Cont'd)

If a school wishes to use symbols or codes on student report cards to indicate modified learning expectations, a policy must be developed (and approved by the local conference office of education) applying the use of symbols or codes for all students and should not be used solely for students with an IEP, learning disability or modified programs.

C19-116 Transcripts

Transcripts for secondary credit courses taken at a junior academy are issued by the local conference office of education.

Transcripts for secondary credit courses taken at an affiliate campus or an extension school of a secondary school, are issued by the sponsoring secondary school.

C19-120 Standardized Achievement Tests [Revised 11/2016; 4/2020]

Each school is to use the union adopted standardized achievement tests.

C19-124 Purposes of Standardized Tests [Revised 4/2020]

Standardized tests are to be employed for the following purposes:

- A. To assist in diagnosing or pre-assessing student needs.
- B. To provide one of the means for prescribing appropriate learning activities for the students.
- C. To assist in identifying student achievement and in providing appropriate placement of the student.
- D. To provide a means of comparing individual and class achievement with the national norms.

JUNIOR ACADEMY GENERAL PROVISIONS | C20

C20-132 Textbook Selection and Use

Textbooks are to be selected from the current NAD *Secondary Textbook List*.

C20-136 Authorization for Use of Alternate Textbooks 9-12 [Revised 4/2016]

If a school desires to use textbooks other than those listed in the NAD *Secondary Textbook List*, arrangements are to be made as follows:

- C. Written authorization to use the alternate choice will be received from the local conference office of education.

C20-140 Teacher Load

Five subject preparations per day and six to seven teaching periods will generally constitute a teaching load for a junior academy teacher. In a departmentalized program the major elementary subject areas and secondary subjects are to be considered equivalent when determining teacher load. Supervisory and co-curricular duties will be assigned by the school administrator as part of the teacher's professional responsibilities. [See Sections A14-124.B., A14-128.B., A14-132.B., and A14-136.B. for the minimum number of full-time teachers or equivalent based on the organizational plan of the junior academy.]

[See Sections C25-132 and C25-136 for criteria and guidelines for implementing the proficiency (basic competency) requirements.]

C20-148 Student Attendance Records – Junior Academy [Revised 11/2013; 10/2018]

An attendance record for each student must be kept by the junior academy using a method which has been approved by the local conference office of education.

The individual student attendance record must indicate absences from school for each day that school is in session.

The attendance record is to be maintained as a part of the student permanent record. [See Section A26-108.]

GRADES 9-12 CURRICULUM | C21

C21-128 Subject Alternation Schedule Grades 11 and 12 [Revised 4/2018]

Certain subjects in grades 11 and 12 may be taught on a yearly alternation basis. The pattern of alternation is indicated by the term “odd year” which designates a year ending in an odd number and “even year” which designates a school year ending in an even number. Larger schools may not need to alternate classes. Schools using the subject alternation plan should place a statement in the bulletin indicating that. C22-108 Admission of Non-Adventist Students

Seventh-day Adventist education has a two-fold mission. The school's primary role is to educate and to spiritually strengthen Seventh-day Adventist youth. The school is to serve as a mission outreach to the community. Enrollment in Adventist schools is open to all applicants willing to accept and follow the established policies and practices of the school.

GRADES 9-12

EVALUATION, RECORDING AND REPORTING OF STUDENT PROGRESS | C24

C24-104 Evaluation and Reporting of Student Progress

Evaluation in education is concerned primarily with student growth. Measurement of student growth may be concerned with three areas: the cognitive or intellectual; the affective, or the area of the values and attitudes; and the psychomotor, the area of physical development and coordination.

Letter grades are the accepted means of reporting student progress in the conventional school curriculum. Secondary schools normally use the five letter grades: A, B, C, D, and F.

C24-106 Grade Reporting [New Policy 7/1/2017]

When reporting the progress of students, the following definitions must be considered:

- A. Accommodations are any variation in the educational environment or process that does not fundamentally alter the content of the course based on voted content standards.

Examples of accommodations include using alternative forms of textbooks (Braille, audio, etc.), allowing a student a different seat in the classroom, oral examinations, extra time for examinations, etc.

Students for whom accommodations are made will receive grades and credit in the same manner as students without accommodations.

- B. Modifications are any variation in the educational environment or process that fundamentally alters the content of the course based on voted content standards.

Examples of modifications include changing the learning expectations, reducing the number standards to be mastered, use of aides that interfere with the independent work of the student, etc.

Students for whom modifications are made may receive report cards which indicate progress of the student toward the goals outlined in the IEP (if one exists). However, permanent school records may not indicate that a student received special education, has a disability, or received related services. Schools may, however, indicate that the student was enrolled in a different course.

For example, at a secondary school, the US History course may be listed on the transcript as a college-prep US History course for students with no modifications. For a student with modifications, the course may be listed as an Intro to US History. Difference in grading systems (letter grade vs. pass/fail) may not be based on a student's need for special services.

If a school wishes to use symbols or codes on student report cards to indicate modified learning expectations, a policy must be developed (and approved by the local conference office of education) applying the use of symbols or codes for all students and should not be used solely for students with an IEP, learning disability or modified programs.

C24-108 Grade-Point Average System

The four-point system is to be used to determine grade-point average. The use of plus and minus with a letter grade is optional but if used the following numerical values are to be assigned: A = 4.0, A- = 3.7, B+ = 3.3, B = 3.0, B- = 2.7, C+ = 2.3, C = 2.0, C- = 1.7, D+ = 1.3, D = 1.0, D- = 0.7, F = 0.0. [See Section C27-124 for "Advanced Placement and/or Honors Courses-Secondary School".]

C24-112 Alternative Reporting Systems

- A. If a school elects to employ another system of reporting student progress, a proposal should be submitted as outlined under "Guidelines for the Implementation of Innovative Programs." [See Sections C11-144 and C11-152.]
- B. In adopting an alternative report form, consideration should be given to factors such as the following:
 - 1. The report form should be correlated with the curriculum of the school, the teaching strategies, and the learning objectives.
 - 2. The report form should be one that can be easily recorded and should be translatable in the event that a student transfers to a school that uses another recording system.

C24-116 Maximum Credit for Courses [Revised 4/2020]

If the conventional curriculum is used, the maximum credit given for any class is 1 Carnegie Unit (10 semester periods); this includes the laboratory science, practical arts and fine arts courses. [See Sections C25-104 and C29-104.]

C24-120 Music Instruction Credit [Revised 4/2020]

Carnegie Units are granted for music organizations on the same basis as that used for granting credit in other subject areas.

One-half Carnegie Units is granted for a minimum of 30 half-hour lessons per year or one half-hour lesson per week for one school year. The credit may be prorated according to the number of lessons if there are more or less than the 30-35 lessons per year.

C24-124 Student Attendance Records – Secondary Schools [Revised 11/2013; 10/2018]

An attendance record for each student must be kept by the secondary schools using a method which has been approved by the local conference office of education.

The individual student attendance record must indicate absences from school for each day that school is in session. It may include a record of absences for each period of the day.

The attendance record is to be maintained as a part of the student permanent records. [See Section A26-108.]

C24-128 Recording Proficiency (Basic Competency)

The following procedures are to be used in recording the proficiency (basic competency) on the student permanent record.

- A. The proficiency (basic competency) level achieved in the basic skills as specified in Section C25-132 is to be recorded on the transcript.
- B. When a waiver of the proficiency requirement is granted, the information is to be recorded on the transcript giving the date and the grade placement when granted, the basic skill(s) for which the waiver is granted, the actual achievement level, and the test used to determine the achievement level.
- C. The data should be recorded and placed on the transcript during the school year in which the proficiency is achieved. The date used should be that date when the test(s) was (were) administered.

- A. The requirement is unrealistic or unattainable for the student, or
- B. The student has proficiency/competency in the specific course(s) as assessed by appropriate evaluation. [See Section C25-112.B.2. for details on challenge of a course for credit or exemption.]

A secondary school may develop and implement a waiver policy based on the following criteria:

C25-112 Criteria and Guidelines for Implementation of the Waiver Provision [Revised 5/2020]

The following criteria and guidelines identify the basic elements for implementing the waiver provision for a specific subject-area graduation requirement.

- A. Criteria for granting a waiver of a specific subject-area graduation requirement.
 1. A waiver is to be requested in writing by the student and supported by the parent(s) or guardian.
 2. Documentation supports the need for a waiver of a graduation requirement which may include, but is not necessarily limited to, such reasons as the following: [Revised 5/2020]
 - a. The student's score on the union adopted standardized achievement test has been at or below the 25th percentile for a minimum of three years.
 - b. The student has a physical impairment which makes it difficult or impossible to meet the requirement or for the school to obtain valid data on which to evaluate the student's achievement or ability level.
 - c. The student demonstrates evidence of a mental alertness as determined by teacher observation over an extended period of time, but observation and testing indicates that there is an impairment which has resulted in a performance problem.
 - d. The student has verified by testing a proficiency/competency in a specific course and it would be in the best interest to substitute another course for the specific subject-area requirement. See B. 2. for details on challenge of a course for credit or exemption.
- B. Guidelines for documenting a waiver of a subject-area graduation requirement for the following.
 1. A student with a learning disability.

The administration and faculty should identify a student who may have difficulty meeting a subject-area graduation requirement as early as possible after the student has enrolled in a junior academy or senior academy. This is to be done by, but not necessarily limited to the following:

 - a. Teacher observation of general attitude and performance of the student.
 - b. Evaluation of attendance records, achievement test results, and general academic progress to determine whether the present status is of recent origin or a continuation of problems over a number of years.
 - c. Evaluation of parental attitude and support.
 - d. Test results on the standardized achievement tests.
 - e. When the initial evaluation has been completed, the director of guidance services should obtain additional testing results and other data which will identify as accurately as possible a student's actual achievement level. [See Section C25-136.B.2. for the testing recommendations and procedures.]

C25-112 Criteria and Guidelines for Implementation of the Waiver Provision (Cont'd)

2. A student who wishes to challenge a specific requirement for credit or for exemption.

A student who verifies proficiency/competency may be granted a waiver of, or challenge credit for, a specific subject requirement.

The criteria and standards adopted by the union for verifying proficiency/competency in a specific subject-area are to be used. In the absence of such criteria for a subject-area criteria and standards are to be developed and approved by the appropriate faculty committee(s) and/or the faculty and adopted by the school board.

- C. Guidelines for recording the waiver of a subject-area requirement on the permanent record.

The waiver request form should become a part of the student's permanent record and should include:

1. The specific subject-area requirement to be waived, including the reason for the request.
2. Signatures of the student and the parent(s) or guardian(s).
3. The action voted by the faculty; the documentation for the waiver, if granted; the course substituted, if applicable.

When a waiver of a specific requirement is granted the following should be recorded on the transcript:

1. The specific requirement that is waived.
2. Date the waiver was voted by the faculty.

C25-116 Residence Requirements

To qualify for graduation the student is to be enrolled at the present school for at least the entire semester prior to graduation. Exceptions for valid transfers must be approved by the appropriate faculty committee(s) or faculty.

 - 1. A RIT score of 220 in both Language Usage and Reading; and a RIT score of 230 in Mathematics for the basic diploma.
 - 2. A RIT score of 225 in Language Arts and Reading; and a RIT score of 240 in Mathematics for the college prep/advanced diploma.
- B. The requirement may be waived if it has been determined that it is not realistic or attainable for an individual student. Waiver plans must be approved by the local conference office of education.

The following criteria and suggested calendar may be used as a guide in the development and implementation of the above action. The plans should be based on criteria such as, but not limited to, the following:

- 1. The plans and procedures should be developed through cooperative efforts of the faculty and approved by the local conference office of education.
- 2. The methods of instruction should be based on diagnosis, prescription, and evaluation of the needs of the individuals.
- 3. The program should be developmental as well as remedial.
- 4. Individual student abilities and needs are to be determined by, but not limited to, the following: performance on a standardized test battery, teacher observation and results of additional psychological testing as needed, with consideration given to such factors as learning deficiencies and disabilities, and other psychological factors and physical disabilities.

C25-136 Guidelines for Implementation of Proficiency (Basic Competency) Requirements

- A. Clarification of the Intent of the Proficiency (Basic Competency) Requirement
 - 1. The school assumes responsibility for helping students who are deficient in the basic skills to reach a minimum level of competency by incorporating programs and/or courses as an integral part of the curriculum.
 - 2. The programs and/or courses developed and the instructional methods employed focus the emphasis of the instructional process on the individual student needs and utilize the techniques of diagnosis, prescription, and evaluation of those student needs.
 - 3. The waiver provision of this policy will be an accepted procedure when it is determined that the requirement is unrealistic or unattainable for a student and will be granted without jeopardizing the issuance of a diploma to such a student.
 - 4. The emphasis of this requirement is on assisting of students to meet the proficiency requirement rather than on the denial of graduation.
- B. Methods and Procedures for Identification of, and Assistance to, Students Who Have Not or Can Not Achieve the Proficiency Requirements in the Basic Skills.

C25-136

Guidelines for Implementation of Proficiency (Basic Competency) Requirements (Cont'd)

1. Initial Identification of Students

The administration is to identify the students who may have difficulty meeting the basic competency requirement in one or more of the areas (reading, mathematics, language) as early as possible after the student has enrolled in a junior academy or secondary school. This is to be done by, but not necessarily limited to the following;

- a. Teacher observation and evaluation of academic progress, the attendance record, and the general attitude of the student toward self and school.
- b. Evaluation of information contained in the cumulative record.
- c. Test results on the standardized achievement tests.

2. Testing Recommendations and Procedures [Revised 4/2020]

When the initial evaluation has been completed the director of guidance services should obtain additional testing results and other data which will identify as accurately as possible a student's actual achievement level in the basic skills.

The following procedures are recommended for testing students who are identified as having a learning problem.

- a. Out-of-level testing may be done using the level which will provide the most accurate description of the actual achievement level.
- b. When additional diagnostic information is needed, regarding cognitive abilities, test(s) should be selected from the following.
 - (1) *Wechsler Intelligence Scale for Children (WISC)**
 - (2) *Wechsler Adult Intelligence Scale (WAIS)**
 - (3) *Stanford-Binet Intelligence Scale**

*This test is to be administered and evaluated only by a person qualified to administer individual intelligence tests.

- c. Subsequent achievement testing of a student should be done using the same level of the test(s) as that used for the initial testing.

3. School Program to Meet Student Needs

The student who has not achieved the proficiency (basic competency) requirement is to be enrolled in a program or course designed to assist the student to meet the requirement. The student is to be enrolled in a program or course each year of attendance until the competency level is achieved or until a waiver is granted up to and including the end of the first semester of the senior year.

C. Criteria for Waiver of the Proficiency Requirement [Revised 4/2020]

One or more of the criteria may be used as a basis for granting a waiver. The following criteria are to be used to determine whether a waiver of the proficiency requirement should be granted:

C25-136 Guidelines for Implementation of Proficiency (Basic Competency) Requirements (Cont'd)

1. The student lacks fluency in reading, writing, or speaking English because it is a foreign language to the student.
2. The student has a physical impairment, such as, but not limited to, the loss of sight or hearing which makes it difficult or impossible to obtain valid data on which to evaluate the achievement or ability level.
3. The student demonstrates evidence of a mental alertness as determined by teacher observation over an extended period of time but, observation and/or testing indicates that there may be a physical or psychological disorder which is interfering with the learning process.

D. Procedure for Recording the Proficiency Level Achieved on the Permanent Record

[See Section C24-128 for procedure for recording the proficiency level on the permanent record.]

C25-140 Graduation Requirements for Schools Establishing Performance-based Programs

Schools structuring curricula in which students are expected to reach specified minimal performance levels in order to be eligible for graduation must submit proposals to the local conference office of education for approval. [See Sections C11-144 and C11-152.]

C25-144 Certificate of Attendance/Differentiated Diploma [Revised 11/2013]

A Certificate of Attendance may be issued to a student who has not completed all the requirements for a Basic diploma. Criteria for differentiated diplomas/certificates must be developed in consultation with the local conference office of education. Provision should be made for noting on the transcript the type of diploma or certificate to be issued.

GRADES 9-12 SPECIAL CURRICULUM PLANS | C26

C26-104 Off-Campus Courses

With prior approval of the appropriate faculty committee/administration a student may be granted permission to enroll in an off-campus course(s) at a local secondary school and/or college/university, and/or correspondence/on-line school.

1. The criteria for granting a request includes, but is not necessarily limited to the following:
 1. The course is not offered at the secondary school.
 2. The student is not able to take the course because of schedule conflicts.
 3. The student needs to retake a course.
 4. The student qualifies for early graduation and this will create an overload. [See Section C27-116.]
 5. Other special circumstances.
2. Correspondence/on-line courses should be taken only from accredited correspondence/on-line schools as approved by the union office of education. [Refer to the union *Registrars' Handbook*.]

Dual credit may be granted for college/university courses taken in residence on an academy campus when the academy has a matriculation agreement with an accredited Seventh-day Adventist college/university.

The process for approval is available from the Pacific Union Conference Office of Education.

C26-112 Summer School Classes [Revised 11/2013; 4/2020]

With board and local conference office of education approval, a secondary school may offer summer school work. Each course is to be taught by a certificated teacher and is to be under the supervision of the school administrator. Courses for which one Carnegie Unit is granted shall meet for 120 clock hours, and courses for which one-half Carnegie Unit is granted shall meet for 60 clock hours.

If a performance-based curriculum has been established and approved, the above clock hours may not apply.

C26-120 Credit by Proficiency Examination [Revised 11/2013]

In special cases, a student may earn secondary credit by examination or by demonstrating that the required level of proficiency has been achieved. [See Section 25-124.]

Correspondence/ On-line Schools [Revised 4/2016]

Students transferring credits from a home school, a non-accredited school, or a correspondence/on-line school not approved by the union may receive credit towards graduation for those courses in accordance with Section C22-116. Transfer grades should be recorded on a pass/fail basis with no honor points computed.

GRADES 9-12 ACADEMIC PLACEMENT | C27

C27-104 The Twelfth-year Program

Secondary schools are to accommodate students during the twelfth-year with varying abilities and educational objectives and thus provide a variety of learning experiences which allow for appropriate educational placement and provide for the expanded role of the twelfth-year, and, in some instances, the other three years which will:

- A. Include a variety of major options, one of which will be the typical in-school course work; and
- B. Assist the student to plan and constructively use the senior year as a period of transition between secondary school and subsequent activities, academic and otherwise; and
- C. Develop, coordinate, and supervise an array of options to which other individuals or agencies contribute.

Opportunities to earn college/university credit and early graduation are options which are to be made available to twelfth grade students, and sometimes to underclassmen, which will free the senior year from many of its traditional constraints.

C27-108 Opportunities to Earn College/University Credit

To accommodate students who have demonstrated satisfactory performance on tests of basic skills, who have an accumulative GPA of 3.0, and who have taken enrichment courses offered at the secondary level, the following opportunities are available by which college/university credit may be earned at La Sierra University and Pacific Union College.

The procedures by which secondary school students may be able to earn college/university credit are as follows:

- A. Credit by examination is given to students who demonstrate knowledge comparable to that ordinarily acquired through regular college/university courses. Such credit is recorded on a Pass/Satisfactory basis.
 - 1. College Level Examination Program (CLEP) or Proficiency Examination Program (PEP) single subject examinations may be taken at designated testing centers, and earn college/university credit according to the published regulations of the college or university regarding the specific tests for which credit is granted, the percentile level that must be achieved, the amount of credit granted, its applicability to various program requirements, and the fee for test administration and the recording of credit.
 - 2. Examinations prepared by the academic departments in subjects regularly taught by the college/university may be taken for credit. The fees for such examinations, the amount of credit granted, and its applicability to various program requirements is determined by the college/university.

C27-108 Opportunities to Earn College/University Credit (Cont'd)

- B. Advanced Placement examinations are prepared and administered by the College Entrance Examination Board in connection with special secondary school courses. Credit is granted for satisfactory performance (level 3) or better.
- C. Extension courses may be offered by the college/university for students with appropriate academic qualifications. Such courses are comparable to regular college/university courses in regard to content, materials, examinations, and credit, as determined by the college/university. Credit for such courses conducted by secondary school personnel is granted only when prior arrangements for instruction and supervision have been made by the secondary school with the college/university.
- D. Enrollment in regular college/university courses is possible, for students who live within commuting distance of the college/university, with the approval of the principal and the academic dean involved. Students must have the prerequisite educational background, and the courses considered must not be duplicated by courses available at the secondary school.
- E. Summer courses may be offered on the college/university campus for selected students during the summer prior to the senior year. Admissions to such courses is granted on the recommendation of the secondary school principal.
- F. Individual directed study programs carrying college/university credit may be arranged under the joint supervision of an secondary school teacher and a college or university teacher, with the approval of the secondary school principal and the academic dean of the college/university.
- G. Correspondence course work for college/university credit may be taken by secondary school students with the prior approval of the secondary school principal and the academic dean of the college/university.

College/university credit earned by examination is granted and recorded when the student establishes an academic record at the college/university.

C27-112 Extension Courses for College/University Credit

Extension courses for college/university credit are offered under the following conditions:

- A. College/university extension courses may be offered and available to those students who qualify.
- B. Only extension courses from Seventh-day Adventist colleges/universities are to be offered on a secondary school campus.
- C. Adequate counseling is to be given to the student as to the nature of the extension course being offered, the type of credit to be earned, whether the credit will apply to the major or minor field of study and the amount of extension credit that a particular college/university and/or department will accept.
- D. Extension courses which compete the currently offered school courses are not to be offered.
- E. See Section C27-108 for guidelines and procedures relating to opportunities for college/university credit.

C27-116 Early Graduation

Early graduation is an option available to a student who wishes to complete the secondary curriculum in less than four years and who meets the following guidelines for early graduation. Exceptions to these guidelines should be made in consultation with the local conference office of education.

A. Criteria for early graduation

1. The student has achieved a cumulative grade-point average of at least 3.5 and continues to maintain the grade-point average following approval as a candidate for early graduation.
2. The student has achieved a composite score at the 85th percentile on the union adopted standardized achievement test.
3. The student is to meet the graduation requirements listed in Section C25-104 and any additional requirements of the school which apply to all graduating seniors.

B. Procedure

1. The student is to submit a written request for early graduation to the secondary school principal. The request is to be submitted as early as possible but no later than the end of the first quarter of the third year. A request received later than the end of the second year may mean that it will be very difficult for a student to arrange for all the courses needed to fulfill the school's graduation requirements. The request is to be accompanied by the written consent of the parent/s.
2. The request and the projected courses must have the approval of the faculty.

C27-120 California High School Proficiency Examination

A student enrolled in a secondary school in California may elect to take the California High School Proficiency Examination (CHSPE) in lieu of completing the requirements for graduation. Information regarding eligibility and dates when the examination is administered are available at each secondary school.

A student who passes the CHSPE and elects to leave school is awarded an equivalency certificate and is not eligible for a diploma.

Students who have passed the CHSPE may apply for admission to a Seventh-day Adventist college/university. Admission to the college/university will be based on the college/university entrance requirements.

C27-124 Advanced Placement and/or Honors Courses [Revised 11/2013]

The following procedures are to be used when a secondary school implements advanced placement and/or honors courses.

A. Advanced Placement (AP)

1. Schools offering Advanced Placement courses must follow the course descriptions and requirements of the College Boards.

For California schools Advanced Placement courses must be approved by University of California system.

2. Advanced Placement courses must be taught by a teacher with secondary subject endorsement in the specific content area.

3. The GPA for Advanced Placement courses is to be based on a 5.0 scale:

A = 5; B = 4; C = 3

NOTE: A letter grade of "D" may be recorded but no GPA advantage is allowed.

4. The advanced placement courses will be subject to review by the local conference office of education annual curriculum and accreditation review committee.

B. Honors Courses

However, the local conference board of education may take action on its own initiative or may take action that supersedes a recommendation from the local school board.

Inasmuch as the local conference executive committee remains legally bound by actions of local school boards, it is incumbent that there be close cooperation between the local school boards and the local conference board of education in the operation of schools and in the application of employment policies for school personnel.

The union also endeavors to prevent harassment by publishing this policy, by developing appropriate sanctions for misconduct, and by informing all employees of a right to complain of harassment.

E10-140 Harassment Policy (Cont'd)

B. Personal Conduct [Revised 11/2013; 11/2014]

Education employees are to exemplify the Christ-like life. Engaging in behavior that is harmful to self or others, or that casts a shadow on their dedication to the Christian way of life should be avoided. Personal attire, posters, banners, bumper stickers, tags, flags, and other symbols whose message, historically or currently, is, or could reasonably be construed to be, one of prejudice, discrimination, or that is inflammatory, may not be displayed anywhere on the premises or while representing the employer in any capacity.

Employees should respect and uplift one another. Employees should never be placed in a position of embarrassment, harassment, ridicule, and belittlement or disrespect. Nor should they be targeted because of gender, race, color, national origin, age, disability, or any other classification under state or local law that does not conflict with the tenets of the church. To do so would be a violation of God's law and civil laws protecting human rights and governing workplace conduct.

C. Sexual Harassment

Sexual harassment is a form of harassment and involves unwelcome sexual advances, requests for sexual favors or other verbal, written or physical conduct of a sexual nature when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of employment; or
2. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting an individual; or
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creates an intimidating, hostile or offensive working environment.

D. Improper Conduct [Revised 11/2012; 11/2014]

Improper conduct by the employer, co-workers and, in some instances, non-employees, can be spoken, written, physical and/or distributed through electronic means. It can include but is not limited to:

1. Any subtle or other pressure or request for sexual favors or activity, including any suggestion that an applicant's or employee's giving in to or rejecting sexual advances will have an effect on that person's employment or terms of employment;
2. Unwelcome sexual flirtation or propositions;
3. Unnecessary or inappropriate touching of a sexual or abusive nature (e.g., patting, pinching, hugging, repeated brushing against another person's body, etc.);
4. Displays, whether worn on the person, displayed in offices or on personal vehicles parked in parking lots used by the organization of sexually suggestive pictures, drawings, cartoons or objects or other erotica;
5. Threats or demands for sexual favors;
6. Unwelcome or derogatory statements related to gender, race, color, national origin, age or disability (for example, kidding, teasing, degrading jokes or offensive comments or tricks);
7. Demeaning or degrading comments about an individual's appearance;
8. Denying an employee the opportunity to participate in training or education on account of gender, race, color, national origin, age or disability;

E10-140 Harassment Policy (Cont'd)

9. Limiting opportunities for promotion, transfer or advancement on account of gender, race, color, national origin, age or disability; or
10. Requiring a protected employee to perform more difficult tasks or less desirable work assignments intended to force retirement or resignation.

E. Reporting Incidents

An employee who believes that harassment has occurred should immediately take the following steps:

1. Make it clear that such conduct is offensive and should be stopped immediately; and,
2. Report the incident to the immediate supervisor, principal, associate superintendent or superintendent of schools. The initial report should be followed by a written statement describing the incident and identifying potential witnesses.

F. Third Party Reports

Employees who are aware of incidents of potential workplace harassment toward others are to report such incidents to the immediate supervisory, principal, associate superintendent or superintendent of schools.

G. Investigation

A complaint of harassment shall be promptly handled and maintained in confidence to the extent possible.

H. Discipline [Revised 11/2012]

A violation of this policy may result in discipline, up to and including termination from employment, based on the provisions of the *Education Code*.

I. Prohibition of Retaliation

The union prohibits retaliation against an employee who complains of harassment.

J. False Allegations of Harassment

While individuals are urged to report alleged harassment, unfounded allegations against another employee or volunteer can irreparably harm the reputation and limit the ability to fulfill duties and responsibilities. Employees who bring malicious, spiteful, or false allegations of harassment may be subject to the disciplinary standards policies in the union *Education Code*.

E10-142 Employment of Sexual Offenders (Employment and Productivity) [New Policy 11/2008]

A. Employment

In hiring all categories of denominational employees great diligence should be exercised to secure persons who are members of the Church and who exert a positive influence in up building the work along spiritual lines.

E10-142 Employment of Sexual Offenders (Employment and Productivity) (Cont'd)

B. Productivity

Care is to be exercised in making assignments to conference and institutional employees so as to fully utilize their capabilities. The effectiveness of all employees is to be reviewed periodically. Where employees are found to be ineffective, counsel should be given them and if necessary they should be given other lines of work or be advised to seek employment outside of the denomination.

C. Employment of Sexual Offenders

The Seventh-day Adventist Church desires to make its work and worship environments a safe place at all times. To achieve this goal, no denominational employing organization shall knowingly employ an employee where any of the following exists:

As part of the employment due process, Designated Officers, or their designees, from denominational employing organizations shall make inquiry to officers, or their designees, of institutions or organizations currently employing, or having employed, individuals they are considering for employment. Designated Officers, or their designees, responding to inquiries about current or former employees of their organizations shall make every effort to assure that accurate information is being communicated.

E10-144 Policy and Guidelines Relating to Sexual Misconduct Incidents Towards Students
[Revised 3/2012; 11/2014; 5/2019]

Certificated and administrative employees are bound by the following sexual misconduct policy and guidelines for education personnel in the union.

A. Purpose of Policy and Guidelines

It is the policy of the union to eliminate sexual misconduct through prevention, appropriate investigation of complaints, civil reporting and corrective action where appropriate. Each local conference office of education and school is responsible for implementing policies and procedures to prevent sexual misconduct and to investigate and to take corrective action in response to complaints.

E10-144 Policy and Guidelines Relating to Sexual Misconduct Incidents Towards Students
(Cont'd)

B. Definition of Sexual Misconduct [Revised 11/2014]

Sexual misconduct as used in this policy refers to sexually oriented behavior by an adult, volunteer or employee toward a student. It includes but is not limited to, sexual advances; requests for sexual activity; inappropriate touching of a sexual, offensive or abusive nature; sexual comments, suggestions or threats; or conduct, which has the purpose or effect of sexually stimulating the adult or student. Sexual misconduct can be spoken, written, physical and/or committed through electronic means.

C. Prevention of Sexual Misconduct [Revised 5/2019]

Local conferences and/or schools should attempt to prevent sexual misconduct by:

1. Careful screening of adults before employment begins. This should generally include a completed application, reference checks and a state and federal criminal record check subject to applicable law. State and federal criminal record summaries should be obtained by the employer on or before the first day of employment. In jurisdictions where a state department of justice does not allow for dissemination of federal criminal record summaries, the employee should be directed to obtain such a criminal record summary from the Federal Bureau of Investigation and provide it to the employer on or before the first day of employment. In cases where the state department of justice does not provide automatic updates to the employer of new arrests and convictions, or where the state department of justice does not provide federal criminal record summaries, the employer should enroll with a third-party vendor that will provide periodic criminal record updates during the year. The North American Division, approved provider may provide such services.
2. Periodic training for all adults who have a contact with students regarding sexual misconduct and child abuse reporting requirements.
3. Periodic training for students which emphasizes identification of and protection from sexual misconduct and reporting procedures of suspected incidents to an adult.

D. Obligation to Report Instances of Suspected Sexual Misconduct or Child Abuse

All instances of suspected sexual misconduct or child abuse must be reported to the appropriate school administrator and child protection agency as specified by state laws. Persons who are mandated by law to report suspected child abuse are protected from retaliation and civil or criminal liability under applicable state laws.

E. Procedure for Reporting Suspected Instances of Sexual Misconduct or Child Abuse

The following reporting procedures should be followed:

1. An employee who has knowledge of or observes a child who is known or reasonably suspected of being the victim of sexual misconduct or child abuse shall report the known or suspected incident to a child protective agency as soon as practically possible by telephone. Child abuse includes sexual abuse, physical abuse and neglect. A written report should be sent within the specified time required by state law. The employee should consult with the administrator at the time of reporting.

E10-144 Policy and Guidelines Relating to Sexual Misconduct Incidents Towards Students
(Cont'd)

2. If volunteers or other adults have reasonable suspicion of sexual misconduct or child abuse it should be promptly reported to child protective services and a school administrator.
3. The superintendent of schools or designee should be notified of the suspected incident as soon as practically possible if the suspected abuser is an employee or volunteer.
4. If the suspected incident involves an employee or volunteer that person may be placed on administrative leave from duty during the investigation by the child protection agency at the discretion of the superintendent of schools in consultation with the principal.
5. All suspected incidents of sexual misconduct or child abuse should be maintained in confidence apart from required notification to child protective services and school administrators. The information should only be shared with others on a need to know basis.

F. Investigation of Suspected Instances of Sexual Misconduct or Child Abuse

The superintendent of schools and the school administrator should cooperate with civil authorities in any investigation of suspected sexual misconduct or child abuse. The superintendent of schools or school administrator may need to conduct an independent investigation of suspected sexual misconduct or child abuse for employment purposes. This investigation should be conducted in a thorough and confidential manner and should be documented. Employment action should be taken in compliance with the procedures set forth in the *Education Code*. Employees may be placed on administrative leave from duty with pay during the investigation.

E10-176 North American Division Retirement Plan

The following describes the retirement plans currently available for employees of participating employers.

A. Defined Benefit Plan

The NAD Retirement Plan is a traditional defined benefit plan which provides a flow of funds until the death of the retiree and eligible spouse ceased to function for purposes of earning service credit on December 31, 1999 except for specific exceptions as detailed in the *Retirement Plan of the NAD and Auxiliary Benefits Z 05 through Z 50*. Service credit earned prior to that date will be "frozen" until the employee becomes eligible for retirement benefits under the terms of the plan.

Education personnel who were denominationally employed prior to January 1, 2000 are eligible to earn service credit for retirement on the defined benefit plan based on the provisions of the *Retirement Plan of the NAD and Auxiliary Benefits* section Z 15 05, "Criteria for Recognizing Service". Retirement benefits earned prior to January 1, 2000 in the defined benefit plan cannot be combined with benefits earned after December 31, 1999 in the defined contribution plan except for vesting and health care purposes.

[See Section E10-180 for details about service credit and benefits in the defined benefit plan.]

E10-176 North American Division Retirement Plan (Cont'd)

B. Defined Contribution Plan

Effective January 1, 2000 the Adventist Retirement Plan, a defined contribution plan has been made available for employees of participating employers. The defined contribution plan accumulates a lump sum which can be converted to an annuity, cashed out or invested at the option of the retiree at the time of retirement eligibility. Retirement benefits earned prior to January 1, 2000 in the defined benefit plan cannot be combined with benefits earned after December 31, 1999 in the defined contribution plan except for vesting and health care purposes.

Details about the defined contribution plan may be obtained from the local conference office of education.

E10-180 Service Credit for North American Division Defined Benefit Retirement Plan

The defined benefit plan ceased to function for purposes of earning service credit on December 31, 1999 except for specific exceptions as detailed in the *Retirement Plan of the NAD and Auxiliary Benefits* Z 05 through Z 50. Service credit earned prior to that date will be “frozen” until the employee becomes eligible for retirement benefits under the terms of the plan.

Education personnel who were denominationally employed prior to January 1, 2000 earned service credit for retirement on the defined benefit plan based on the provisions of the *Retirement Plan of the NAD and Auxiliary Benefits* section Z 15 05, “Criteria for Recognizing Service”.

A qualified employee who applied for the Career Completion Option by December 31, 1999 could earn up to a maximum of five additional years of service credit or a total of 40 years of service credit, whichever is less, under the frozen plan.

Retirement benefits earned prior to January 1, 2000 in the defined benefit plan cannot be combined with benefits earned after December 31, 1999 in the defined contribution plan except for vesting and healthcare purposes.

A “safety net” is provided to assist those who may be disadvantaged by the “freeze” in the defined benefit plan. For those eligible to retire the Plan will calculate the monthly benefit of the frozen single life annuity, plus an estimate of what the employer-contributed account balance in the new plan would be if invested in the plan designated “default” strategy, converted to a single life annuity. This “combined annuity” will then be compared with what the single life annuity would have been had the plan not been frozen. If the “combined annuity” is less than the “no-freeze annuity”, the Plan will top-up the single life annuity by the amount of the shortfall. This Transitional Enhancement is designed to protect employees from possible reductions in the single life annuity benefits. It is not designed to replace the elimination spouse allowance for post-freeze service.

An employee who does not have enough service credit in the frozen defined benefit plan at the time of the freeze can count up to ten post-freeze years towards meeting minimal qualifying vesting thresholds under the pre-freeze plan up to December 31, 2014. The employee does not earn additional benefit service credit. Post-freeze service is considered only for purposes of reaching certain service thresholds. The qualifying thresholds that can be reached by post-freeze service include:

	<u>Requirements</u>
1. Monthly Benefits	10 years
2. Spouse Allowance	20 years
3. No Penalty Early Retirement	40 years
4. Surviving Spouse Benefits	10-15 years
5. Death Benefit	10 years
6. Early Retirement Health care	40 years

E10-192 Termination Settlement [Revised 11/2008; 11/2011; 5/2013; 5/2014]

In order to provide transition funds for an involuntarily terminated full-time employee leaving denominational service, a termination settlement may be provided under the terms of this policy. The settlement is not an earned employee benefit automatically provided in every case of employment termination.

A. Eligible Recipient

A termination settlement may be granted to an involuntarily terminated employee who has worked in denominational employment for at least two years regardless of age. A resignation as a result of being counseled to resign by the employer is considered an involuntary termination for the purposes of this policy. Eligibility shall be determined according to the following criteria.

1. Closure or Reduction

An employee involuntarily terminated due to closure of a denominational facility or staff reductions due to financial exigency or enrollment.

2. Lack of Performance

An employee who is terminated for failing to adequately perform the functions of the job.

3. Medical Condition

An employee who is unable to continue employment because of a medical condition but it not eligible for disability benefits under the Employee Disability Income Plan. [*NAD Working Policy Y 33.*]

E10-192 Termination Settlement (Cont'd)

4. Term Status [New Policy 11/2011]

B. Ineligible Recipient [Revised 5/2013; 5/2014]

2. Involuntary Termination

C. Service Record

A termination settlement shall be recorded on the terminated employee's service record. Such settlement, however, shall not increase service credit, nor shall it cancel any part of the employee's service credit.

D. Settlement

1. Payment [Revised 11/2008; 5/2014]

A termination settlement shall be paid by the terminating employer to the eligible employee in either a lump sum payment or in series of payments at the discretion of the terminating employer.

2. Calculation

The settlement shall be 25 percent of current monthly wages multiplied by total number of years of denominational service credit up to a maximum of twenty years. Current monthly wages shall include wages and cost of living adjustments, but shall not include area travel or any other allowances.

3. Independent Transfers

In the case of the termination of an employee who has been voted an independent transfer, the settlement shall be calculated only on years of service earned as a church employee within the territory of the NAD or as a regularly appointed interdivision employee from the NAD.

E10-192 Termination Settlement (Cont'd)

E. Other Benefits

Unpaid accrued benefits, such as vacation or sick leave, if any, shall have no effect on the calculation of this settlement. If an employee has received a previous termination settlement under the terms of *NAD Working Policy Y 36*, any subsequent termination settlement shall be calculated based on years of service credit earned since the date of the previous termination settlement.

F. Health Care Benefits

Health care benefits in most situations cease with the effective date of termination. [See *NAD Working Policy Y 22*.] However, the terminating employer may provide continued emergency hospitalization and medical benefits to the terminated employee and dependents participating in the health care assistance plan, provided that such assistance shall be granted only in case of illness or accident. Non-emergency medical, dental and optical care is specifically excluded. This assistance may continue (1) as required by applicable law, or (2) for up to two months from the date of termination, or (3) until the terminated employee obtains health care assistance cover, whichever occurs first.

Terminated employees shall promptly notify the terminating employer when obtaining health care assistance coverage while eligible for assistance under this policy.

G. Release

As a condition of receiving a termination settlement, terminated employees are required to execute the separation agreement of their terminating employer, which shall include, without limitation, a waiver and release of any and all claims against their terminating employer, related organizations, and the officers, agents and employees of the terminating employer. The terminating employer shall issue the separation agreement to the terminated employee as soon as reasonably practicable following cessation of employment.

Terminated employees will have 21 days from receipt of the separation agreement to sign and return it to the terminating employer, unless a longer time period for consideration and signature is required by applicable law. If the separation agreement is not signed and returned to the terminating employer within the applicable time period, the termination settlement may well be forfeited. (A model separation agreement and release for terminating employees is available on the website of the NAD.)

H. Variances

Properly constituted governing or administrative bodies of denominational employers may authorize a termination settlement at variance with the provisions of this policy in order to comply with state or local laws. Involuntarily terminated teachers under continuous appointment may be eligible for a termination settlement as described in *NAD Working Policy FEC 05 25-5* rather than under the terms of this policy.

E10-196

Infectious Blood Borne Diseases Policy – Certificated Personnel

A. Preamble

The schools of the union shall strive to protect the safety and health of students in their care, as well as their families, employees and the general public. Staff members shall cooperate with public health authorities to promote these goals.

School staff members will always strive to maintain a respectful school climate and not allow physical or verbal harassment of any individual or group by another individual or group. This includes taunts directed against a person living with HIV infection, a person perceived as having HIV infection, or a person associated with someone with HIV infection.

The evidence is overwhelming that the risk of transmitting infectious blood borne disease, including but not limited to human immuno-deficiency virus (HIV), acquired immuno-deficiency syndrome (AIDS), and Hepatitis B and C, is extremely low in school settings when current guidelines are followed. The presence of a person living with or diagnosed with a blood borne infection poses no significant risk to others in school.

B. Employment

The schools of the union do not discriminate on the basis of HIV infection or association with another person with HIV infection. In accordance with the Americans with Disabilities Act of 1990, an employee with an infectious, blood borne disease is welcome to continue working as long as the employee is able to perform the essential function of the position, with reasonable accommodation.

C. Privacy

Teachers and staff members are not required to disclose HIV infection status or any other medical information to anyone in the educational system. HIV antibody testing is not required for any purpose.

All personal health information, including that related to blood borne infections, is confidential. Willful or negligent disclosure is punishable by law.

D. Infection Control

All employees are required to consistently follow infection control guidelines in all settings and at all times, including playgrounds and field trips. Schools will operate according to the standards promulgated by the U.S. Occupational Safety and Health Administration (US-OSHA) for the prevention of blood borne infections. Equipment and supplies needed to apply the infection control guidelines will be maintained and kept reasonably accessible. Each school shall have a designee that shall implement the precautions and investigate, correct, and report on instances of lapse.

A school staff member is expected to alert the person responsible for health and safety issues if a student's health condition or behavior presents a reasonable risk of transmitting an infection.

If a situation occurs at school in which a person might have been exposed to an infectious agent, such as an instance of blood-to-blood contact, school authorities shall counsel that person (or if a minor, alert a parent or guardian) to seek appropriate medical evaluation.

E10-196 Infectious Blood Borne Diseases Policy – Certificated Personnel (Cont'd)

E. Staff Development

School staff members will be given opportunity to participate in infectious blood borne disease education programs that:

1. Convey factual and current information.
2. Provide guidance on infection control procedures.
3. Inform about current laws and school policies concerning infectious blood borne diseases.
4. Assist staff to maintain productive parent and community relations.
5. Include annual review sessions.

It is recommended that certain employees receive additional specialized training as appropriate to individual positions and responsibilities.

F. Hepatitis B Vaccination

Any employee considered to be at risk of acquiring Hepatitis B due to an occupational exposure to blood borne pathogens, will be given opportunity to be vaccinated with Hepatitis B vaccine at no charge to the employee. The vaccinations consist of a series of three inoculations over a six-month period.

If an exposure to blood borne pathogens should occur, a comprehensive post-exposure evaluation and follow-up process will be followed to ensure that employees receive the best and most timely treatment.

2. A hearing may be conducted by:

2.  - a. The physician shall not be regularly employed or utilized by the local conference unless the employee is located in an area where health care is extremely limited.
 - b. The second medical opinion shall be subject only to the condition that the examination may not include a diagnostic test or procedure that is painful, protracted, or intrusive. The drawing of blood or the taking of a urine sample shall be permitted provided it is reasonably necessary for the determination of medical facts needed to form the basis of an opinion that the employee is medically unable to attend the hearing or appeal.
 - c. The second opinion shall specify, when solicited by the local conference, what reasonable accommodations could be made in the hearing or appeal process that would allow the participation of the employee.
3. If the second medical opinion differs from the employee's original assertion or certification that the employee is medically unable to attend the hearing or appeal, the local conference may, at its own expense, require that the employee submit to another medical evaluation for the purpose of obtaining the opinion of a third health care provider designed or approved jointly by the employer and the employee. This third opinion shall be binding.

E17-104 Hearing and Appeal Processes (Cont'd)

4. The employer may require the employee to obtain subsequent re-certifications on a reasonable basis.
5. It is not beneficial to the school, the local conference, or the employee to delay the resolution of employment disputes. Thus, when a medical opinion sets for that an employee will be medically unable to attend an employment hearing or appeal within 60 days, the local conference may conduct the hearing or appeal and require the attendance of a representative of the employee. This representative may not be an attorney. The employee or representative will be given a 30 day notice of the hearing or appeal in order to properly prepare. If the employee fails or refuses to designate a representative, the proposed status change may be acted upon without the hearing or appeal.

E18-128 North American Division Retirement Plan

The following describes the retirement plans currently available for employees of participating employers.

A. Defined Benefit Plan

The NAD Retirement Plan is a traditional defined benefit plan which provides a flow of funds until the death of the retiree and eligible spouse ceased to function for purposes of earning service credit on December 31, 1999 except for specific exceptions as detailed in the *Retirement Plan of the NAD and Auxiliary Benefits*, Z 05 through Z 50. Service credit earned prior to that date will be “frozen” until the employee becomes eligible for retirement benefits under the terms of the plan.

Education personnel who were denominationally employed prior to January 1, 2000 are eligible to earn service credit for retirement on the defined benefit plan based on the provisions of the *Retirement Plan of the NAD and Auxiliary Benefits*, section Z 15 05, “Criteria for Recognizing Service”. Retirement benefits earned prior to January 1, 2000 in the defined benefit plan cannot be combined with benefits earned after December 31, 1999 in the defined contribution plan except for vesting and health care purposes.

[See Section E10-180 for details about service credit and benefits in the defined benefit plan.]

B. Defined Contribution Plan

Effective January 1, 2000 the Adventist Retirement Plan, a defined contribution plan has been made available for employees of participating employers. The defined contribution plan accumulates a lump sum which can be converted to an annuity, cashed out or invested at the option of the retiree at the time of retirement eligibility. Retirement benefits earned prior to January 1, 2000 in the defined benefit plan cannot be combined with benefits earned after December 31, 1999 in the defined contribution plan except for vesting and health care purposes.

Details about the defined contribution plan may be obtained from the local conference office of education.

E18-132 Service Records for Classified Personnel

The local conference secretary or human resource services director is responsible for the service records of all education personnel. Each employee shall be given a copy of the service record at any time at the employee’s request by the last employing organization each time the employee transfers from one denominational organization to another, and at the time the employee discontinues denominational service.

E18-136 Service Credit for North American Division Defined Benefit Retirement Plan

The defined benefit plan ceased to function for purposes of earning service credit on December 31, 1999 except for specific exceptions as detailed in the *Retirement Plan of the NAD and Auxiliary Benefits*, Z 05 through Z 50. Service credit earned prior to that date will be “frozen” until the employee becomes eligible for retirement benefits under the terms of the plan.

Education personnel who were denominationally employed prior to January 1, 2000 earned service credit for retirement on the defined benefit plan based on the provisions of the *Retirement Plan of the NAD and Auxiliary Benefits*, section Z 15 05, “Criteria for Recognizing Service”.

A qualified employee who applied for the Career Completion Option by December 31, 1999 could earn up to a maximum of five additional years of service credit or a total of 40 years of service credit, whichever is less, under the frozen plan.

Retirement benefits earned prior to January 1, 2000 in the defined benefit plan cannot be combined with benefits earned after December 31, 1999 in the defined contribution plan except for vesting and healthcare purposes.

A “safety net” is provided to assist those who may be disadvantaged by the “freeze” in the defined benefit plan. For those eligible to retire the Plan will calculate the monthly benefit of the frozen single life annuity, plus an estimate of what the employer-contributed account balance in the new plan would be if invested in the plan designated “default” strategy, converted to a single life annuity. This “combined annuity” will then be compared with what the single life annuity would have been had the plan not been frozen. If the “combined annuity” is less than the “no-freeze annuity”, the Plan will top-up the single life annuity by the amount of the shortfall. This Transitional Enhancement is designed to protect employees from possible reductions in the single life annuity benefits. It is not designed to replace the elimination spouse allowance for post-freeze service.

An employee who does not have enough service credit in the frozen defined benefit plan at the time of the freeze can count up to ten post-freeze years towards meeting minimal qualifying vesting thresholds under the pre-freeze plan up to December 31, 2014. The employee does not earn additional benefit service credit. Post-freeze service is considered only for purposes of reaching certain service thresholds. The qualifying thresholds that can be reached by post-freeze service include:

	<u>Requirements</u>
1. Monthly Benefits	10 years
2. Spouse Allowance	20 years
3. No Penalty Early Retirement	40 years
4. Surviving Spouse Benefits	10-15 years
5. Death Benefit	10 years
6. Early Retirement Healthcare	40 years

Service credit for retirement under the defined benefit plan was earned as follows:

A. Twelve-month Employment Plan

One year of service credit is credited to an employee for each calendar year in which there was remuneration for at least 1,950 hours or for at least 11.5 months on a full-time salaried basis for participating employers.

After January 1, 1981, an employee who works less than full-time during a calendar year shall be eligible for proportionate credit based on the provisions of the *Retirement Plan of the NAD and Auxiliary Benefits*, Section Z 15 05 (4).

A teacher who is employed at least half time shall also be eligible for proportionate service credit during the periods listed above. [See *Retirement Plan of the NAD and Auxiliary Benefits*, Section Z 15 15 (1).]

C. Personnel Employed by a Local School

1. The employee is remunerated for at least 1,000 hours during a calendar year.

Employees paid their remuneration directly by the church or school are not eligible to participate in either the frozen defined benefit plan or the defined contribution retirement.

A Task Force Worker is normally a volunteer and thus not considered to be an employee, therefore, he/she normally is not eligible for service credit.

[See Section E10-176 for information about the Adventist Retirement Defined Contribution Plan.]

Terminated employees shall promptly notify the terminating employer when obtaining health care assistance coverage while eligible for assistance under this policy.

G. Release

As a condition of receiving a termination settlement, terminated employees are required to execute the separation agreement of their terminating employer, which shall include, without limitation, a waiver and release of any and all claims against their terminating employer, related organizations, and the officers, agents and employees of the terminating employer. The terminating employer shall issue the separation agreement to the terminated employee as soon as reasonably practicable following cessation of employment.

Terminated employees will have 21 days from receipt of the separation agreement to sign and return it to the terminating employer, unless a longer time period for consideration and signature is required by applicable law. If the separation agreement is not signed and returned to the terminating employer within the applicable time period, the termination settlement may well be forfeited. (A model separation agreement and release for terminating employees is available on the website of the NAD.)

H. Variances

Properly constituted governing or administrative bodies of denominational employers may authorize a termination settlement at variance with the provisions of this policy in order to comply with state or local laws. Involuntarily terminated teachers under continuous appointment may be eligible for a termination settlement as described in *NAD Working Policy FEC 05 25-5* rather than under the terms of this policy.

E18-144 Harassment Policy [Revised 11/2012; 11/2013; 11/2014]

The following harassment policy applies to all classified personnel in the union.

A. Working Environment

The union recognizes its responsibility to all employees to maintain a working environment free from harassment. It endeavors to achieve this environment through educating employees that harassment violates the law and will not be tolerated. The union also endeavors to prevent harassment by publishing this policy, by developing appropriate sanctions for misconduct, and by informing all employees of their right to complain of harassment.

B. Personal Conduct [Revised 11/2013; 11/2014]

Education employees are to exemplify the Christ-like life. Engaging in behavior that is harmful to self or others, or that casts a shadow on their dedication to the Christian way of life should be avoided. Personal attire, posters, banners, bumper stickers, tags, flags, and other symbols whose message, historically or currently, is, or could reasonably be construed to be, one of prejudice, discrimination, or that is inflammatory, may not be displayed anywhere on the premises or while representing the employer in any capacity.

Employees should respect and uplift one another. Employees should never be placed in a position of embarrassment, harassment, ridicule, belittlement or disrespect. Nor should they be targeted because of gender, race, color, national origin, age or disability or any other classification under state or local law, that does not conflict with the tenets of the church. To do so would be a violation of God's law and civil laws protecting human rights and governing workplace conduct.

C. Sexual Harassment

Sexual harassment is a form of harassment and involves unwelcome sexual advances, requests for sexual favors or other verbal, written or physical conduct of a sexual nature when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment; or
2. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting an individual; or
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creates an intimidating, hostile or offensive working environment.

D. Improper Conduct [Revised 11/2014]

Improper conduct by the employer, co-workers and, in some instances, non-employees, can be spoken, written, physical and/or distributed through electronic means. It can include but is not limited to:

1. Any subtle or other pressure or request for sexual favors or activity, including any suggestion that an applicant's or employee's giving in to or rejecting sexual advances will have an effect on that person's employment or terms of employment;
2. Unwelcome sexual flirtation or propositions;
3. Unnecessary or inappropriate touching of a sexual or abusive nature (e.g., patting, pinching, hugging, repeated brushing against another person's body, etc.);

E18-144 Harassment Policy (Cont'd)

4. Displays, whether worn on the person, displayed in offices or on personal vehicles parked in parking lots used by the organization of sexually suggestive pictures, drawings, cartoons or objects or other erotica;
5. Threats or demands for sexual favors;
6. Unwelcome or derogatory statements related to gender, race, color, national origin, age or disability (for example, kidding, teasing, degrading jokes or offensive comments or tricks);
7. Demeaning or degrading comments about an individual's appearance;
8. Denying an employee the opportunity to participate in training or education on account of gender, race, color, national origin, age or disability;
9. Limiting opportunities for promotion, transfer or advancement on account of gender, race, color, national origin, age or disability; or
10. Requiring a protected employee to perform more difficult tasks or less desirable work assignments in order to force retirement or resignation from employment.

E. Reporting Incidents

An employee who believes that harassment has occurred should immediately take the following steps:

1. Make it clear that such conduct is offensive and should be stopped immediately; and,
2. Report the incident to the immediate supervisor, principal, associate superintendent or superintendent of schools. The initial report should be followed by a written statement describing the incident and identifying potential witnesses.

F. Third Party Reports

Employees who are aware of incidents of potential workplace harassment toward others are to report such incidents to the immediate supervisory, principal, associate superintendent or superintendent of schools.

G. Investigation

A complaint of harassment shall be promptly handled and maintained in confidence to the extent possible.

H. Discipline [Revised 11/2012]

A violation of this policy may result in discipline, up to and including termination from employment, based on the provisions of the *Education Code*.

I. Prohibition of Retaliation

The union prohibits retaliation against an employee who complains of harassment.

J. False Allegations of Harassment

While individuals are urged to report alleged harassment, unfounded allegations against another employee or volunteer can irreparably harm a reputation and limit the ability to fulfill duties and responsibilities. Employees who bring malicious, spiteful, or false allegations of harassment may be subject to the disciplinary standards policies in the union *Education Code*.

[NAD Working Policy E 84]

E18-146 Employment of Sexual Offenders (Employment and Productivity) [New Policy 11/2008]

A. Employment

In hiring all categories of denominational employees great diligence should be exercised to secure persons who are members of the Church and who exert a positive influence in up-building the work along spiritual lines.

B. Productivity

Care is to be exercised in making assignments to conference and institutional employees so as to fully utilize their capabilities. The effectiveness of all employees is to be reviewed periodically. Where employees are found to be ineffective, counsel should be given them and if necessary they should be given other lines of work or be advised to seek employment outside of the denomination.

C. Employment of Sexual Offenders

The Seventh-day Adventist Church desires to make its work and worship environments a safe place at all times. To achieve this goal, no denominational employing organization shall knowingly employ an employee where any of the following exists:

1. Any admission of guilt pertaining to sexual abuse, or sexual misconduct (See *NAD Working Policy E 87 15*, paragraph 20)—Sexual Misconduct—Improper sexual behavior including any of the following:
 - a. Actual or attempted sexual contact with a minor or with any person where there exists a relationship with inequality of power;
 - b. Actual or attempted rape or sexual contact by force, threat, or intimidation;
 - c. Criminal behavior of a sexual nature.
 - d. Possession, manufacture, distribution or access with intent to view child pornography.
2. Any criminal conviction or plea of guilty, *nolo contendere* (no contest), or its equivalent for sexual abuse, or sexual misconduct.
3. Any civil judicial determination of liability, injunctive relief, non-monetary relief, punitive or exemplary damages, or factual finding, settlement for compromise of a civil suit or any finding by the employer's Sexual Ethics Committee or similar body in lieu of filing suite in favor of the claimant resulting from allegations of sexual abuse, or sexual misconduct.

As part of the employment due process, Designated Officers, or their designees, from denominational employing organizations shall make inquiry to officers, or their designees, of institutions or organizations currently employing, or having employed, individuals they are considering for employment. Designated Officers, or their designees, responding to inquiries about current or former employees of their organizations shall make every effort to assure that accurate information is being communicated.

[*NAD Working Policy E 81*]

E18-148 Sexual Misconduct Policy and Guidelines [Revised 11/2014; 5/2019]

Classified employees are bound by the following sexual misconduct policy and guidelines for education personnel in the union.

A. Purpose of Policy and Guidelines

It is the policy of the union to eliminate sexual misconduct through prevention, appropriate investigation of complaints, civil reporting and corrective action where appropriate. Each local conference office of education and local school is responsible for implementing policies and procedures to prevent sexual misconduct and to investigate and to take corrective action in response to complaints.

B. Definition of Sexual Misconduct [Revised 11/2014]

Sexual misconduct as used in this policy refers to sexually oriented behavior by an adult, volunteer or employee toward a student. It includes but is not limited to, sexual advances; requests for sexual activity; inappropriate touching of a sexual, offensive or abusive nature; sexual comments, suggestions or threats; or conduct which has the purpose or effect of sexually stimulating the adult or student. Sexual misconduct can be spoken, written, physical and/or committed through electronic means.

C. Prevention of Sexual Misconduct [Revised 5/2019]

Local conferences and/or schools should attempt to prevent sexual misconduct by:

1. Careful screening of adults before employment begins. This should generally include a completed application, reference checks and a state and federal criminal record check subject to applicable law. State and federal criminal record summaries should be obtained by the employer on or before the first day of employment. In jurisdictions where a state department of justice does not allow for dissemination of federal criminal record summaries, the employee should be directed to obtain such a criminal record summary from the Federal Bureau of Investigation and provide it to the employer on or before the first day of employment. In cases where the state department of justice does not provide automatic updates to the employer of new arrests and convictions, or where the state department of justice does not provide federal criminal record summaries, the employer should enroll with a third-party vendor that will provide periodic criminal record updates during the year. The North American Division, approved provider may provide such services.
2. Periodic training for all adults who have a contact with students regarding sexual misconduct and child abuse reporting requirements.
3. Periodic training for students which emphasizes identification of and protection from sexual misconduct and reporting procedures of suspected incidents to an adult.

D. Obligation to Report Instances of Suspected Sexual Misconduct or Child Abuse

All instances of suspected sexual misconduct or child abuse must be reported to the appropriate school administrator and child protection agency as specified by state laws. Persons who are mandated by law to report suspected child abuse are protected from retaliation and civil or criminal liability under applicable state laws.

E. Procedure for Reporting Suspected Instances of Sexual Misconduct or Child Abuse

The following reporting procedures should be followed:

E18-148 Sexual Misconduct Policy and Guidelines (Cont'd)

1. An employee who has knowledge of or observes a child who is known or reasonably suspected of being the victim of sexual misconduct or child abuse shall report the known or suspected incident to a child protective agency as soon as practically possible by telephone. Child abuse includes sexual abuse, physical abuse and neglect. A written report should be sent within the specified time required by state law. The employee should consult with the administrator at the time of reporting.
2. If volunteers or other adults have reasonable suspicion of sexual misconduct or child abuse it should be promptly reported to child protective services and a school administrator.
3. The superintendent of schools or designee should be notified of the suspected incident as soon as practically possible if the suspected abuser is an employee or volunteer.
4. If the suspected incident involves an employee or volunteer that person may be suspended from duty during the investigation by the child protection agency at the discretion of the superintendent of schools in consultation with the principal.
5. All suspected incidents of sexual misconduct or child abuse should be maintained in confidence apart from required notification to child protective services and school administrators. The information should only be shared with others on a need to know basis.

F. Investigation of Suspected Instances of Sexual Misconduct or Child Abuse

The superintendent of schools and the school administrator should cooperate with civil authorities in any investigation of suspected sexual misconduct or child abuse. The superintendent of schools or school administrator may need to conduct an independent investigation of suspected sexual misconduct or child abuse for employment purposes. This investigation should be conducted in a thorough and confidential manner and should be documented. Employment action should be taken in compliance with the procedures set forth in the *Education Code*. Employees may be suspended from duty with pay during the investigation.

E18-152 Infectious Blood Borne Diseases Policy – Classified Personnel

A. Preamble

The schools of the union shall strive to protect the safety and health of students in their care, as well as their families, employees and the general public. Staff members shall cooperate with public health authorities to promote these goals.

School staff members will always strive to maintain a respectful school climate and not allow physical or verbal harassment of any individual or group by another individual or group. This includes taunts directed against a person living with HIV infection, a person perceived as having HIV infection, or a person associated with someone with HIV infection.

The evidence is overwhelming that the risk of transmitting infectious blood borne disease, including but not limited to human immuno-deficiency virus (HIV), acquired immuno-deficiency syndrome (AIDS), and Hepatitis B and C, is extremely low in school settings when current guidelines are followed. The presence of a person living with or diagnosed with a blood borne infection poses no significant risk to others in school.

B. Employment

E18-152 Infectious Blood Borne Diseases Policy – Classified Personnel (Cont'd)

The schools of the union do not discriminate on the basis of HIV infection or association with another person with HIV infection. In accordance with the Americans with Disabilities Act of 1990, an employee with an infectious, blood borne disease is welcome to continue working as long as the employee is able to perform the essential function of the position, with reasonable accommodation.

C. Privacy

Teachers and staff members are not required to disclose HIV infection status or any other medical information to anyone in the educational system. HIV antibody testing is not required for any purpose.

All personal health information, including that related to blood borne infections, is confidential. Willful or negligent disclosure is punishable by law.

D. Infection Control

All employees are required to consistently follow infection control guidelines in all settings and at all times, including playgrounds and field trips. Schools will operate according to the standards promulgated by the U.S. Occupational Safety and Health Administration (US-OSHA) for the prevention of blood borne infections. Equipment and supplies needed to apply the infection control guidelines will be maintained and kept reasonably accessible. Each school shall have a designee that shall implement the precautions and investigate, correct, and report on instances of lapse.

A school staff member is expected to alert the person responsible for health and safety issues if a student's health condition or behavior presents a reasonable risk of transmitting an infection.

If a situation occurs at school in which a person might have been exposed to an infectious agent, such as an instance of blood-to-blood contact, school authorities shall counsel that person (or if a minor, alert a parent or guardian) to seek appropriate medical evaluation.

E. Staff Development

School staff members will be given opportunity to participate in infectious blood borne disease education programs that:

1. Convey factual and current information.
2. Provide guidance on infection control procedures.
3. Inform about current laws and school policies concerning infectious blood borne diseases.
4. Assist staff to maintain productive parent and community relations.
5. Include annual review sessions.

It is recommended that certain employees receive additional specialized training as appropriate to individual positions and responsibilities.

F. Hepatitis B Vaccination

Any employee considered to be at risk of acquiring Hepatitis B due to an occupational exposure to blood borne pathogens, will be given opportunity to be vaccinated with Hepatitis B vaccine at no charge to the employee. The vaccinations consist of a series of three inoculations over a six-month period.

If an exposure to blood borne pathogens should occur, a comprehensive post-exposure evaluation and follow-up process will be followed to ensure that employees receive the best and most timely treatment.

3. The appeal is to be conducted by the local conference board of education.

4. The employee has a right to be present at the appeal to present information to support the claim that:

- a. the process was not fair; and/or,
- b. there was a lack of evidence to support a reasonable basis for the decision.

E20-104 Hearing and Appeal Processes (Cont'd)

5. The employee may have another person present other than an attorney.
6. The local conference board of education may set reasonable limits on the length of the employee's presentation and other procedures of the appeal.

E. Disposition of the Appeal

The superintendent of schools shall communicate the decision of the local conference board of education to the employee.

F. Failure to Appear

An employee is expected to attend the hearing or appeal on the date scheduled in the notice to the employee described in Section E20-104.C.(1). If an employee states an inability to attend the hearing or appeal for medical reasons, the following procedures shall apply:

1. The local conference office of education may require sufficient certification from the employee's physician that the employee is unable to attend an employment hearing or appeal. The certification should, at a minimum, set forth:
 - a. The date on which the employee's medical condition commenced;
 - b. The probable duration of the condition; and,
 - c. The appropriate medical facts within the knowledge of the health care provider regarding the condition and an explanation as to why these medical facts prevent the employee's participation in the hearing or appeal.
2. The local conference office of education may require the employee to submit to a medical evaluation by a physician of the local conference's own choosing, and at its own expense, for the purpose of obtaining a second medical opinion regarding whether the employee is medically unable to attend the hearing or appeal.
 - a. The physician shall not be regularly employed or utilized by the local conference unless the employee is located in an area where health care is extremely limited.
 - b. The second medical opinion shall be subject only to the condition that the examination may not include a diagnostic test or procedure that is painful, protracted, or intrusive. The drawing of blood or the taking of a urine sample shall be permitted provided it is reasonably necessary for the determination of medical facts needed to form the basis of an opinion that the employee is medically unable to attend the hearing or appeal.
 - c. The second opinion shall specify, when solicited by the local conference, what reasonable accommodations could be made in the hearing or appeal process that would allow the participation of the employee.
3. If the second medical opinion differs from the employee's original assertion or certification that the employee is medically unable to attend the hearing or appeal, the local conference may, at its own expense, require that the employee submit to another medical evaluation for the purpose of obtaining the opinion of a third health care provider designed or approved jointly by the employer and the employee. This third opinion shall be binding.

E20-104 Hearing and Appeal Processes (Cont'd)

4. The employer may require the employee to obtain subsequent re-certifications on a reasonable basis.

5. It is not beneficial to the school, the local conference, or the employee to delay the resolution of employment disputes. Thus, when a medical opinion sets for that an employee will be medically unable to attend an employment hearing or appeal within 60 days, the local conference may conduct the hearing or appeal and require the attendance of a representative of the employee. This representative may not be an attorney. The employee or representative will be given a 30 day notice of the hearing or appeal in order to properly prepare. If the employee fails or refuses to designate a representative, the proposed status change may be acted upon without the hearing or appeal.

E21-108 Definition of Non-Exempt Classified Employment Status [Revised 4/2016]

A non-exempt classified employee is an “at-will” employee who is employed in a position that does not require a certificate, is paid an hourly rate and is eligible for overtime under Fair Labor Standards Act and applicable state laws. “At-will” means that either the employer or employee can terminate the employment with or without requirement of cause or advance notice. 1. Full-time employee

<u>Years of Service</u>	<u>Vacation entitlement per year of full-time service</u>	<u>Vacation entitlement accrued per 38-hour week</u>
During first four year period	2 weeks	1.4575 hours

After nine years	4 weeks	2.9151 hours

- a. Example: An employee with 12 years of service receives 2.1863 hours vacation for each 38 hour week, times the number of weeks worked.
- b. For the purpose of facilitating vacation records, the vacation is to be based on a fiscal year (July 1 to June 30). Vacation time accrues on a prorated basis for a period less than a full year.

The accrued amount will be equal to the amount the employee would receive while taking vacation entitlement before the transfer or discontinuance of employment begins.
- g. Individuals who become exempt denominational employees after several years of experience in work outside of a denominational employment that professionally advanced their ability to more effectively perform their work for the Church may be granted one year of credit toward vacation accrual for each two years of such prior service.

E21-120 Vacation and Paid Holidays (Cont'd)

	During next five year period	2.1863 hrs	.057534 hrs
	After nine years	2.9151 hrs	.076713 hrs

Example:

An employee with eight years of service who works 18 hours per week for 40 weeks. 18 hours per week x 40 is a total of 720 hours x .057534 (the accrual for each hour worked) = 41.42 or 41 1/2 hours of vacation for that year.

B. Paid Holidays are Granted to Non-Exempt Classified Personnel [Revised 11/2014]

GENERAL PROVISIONS OF REMUNERATION | F10

F10-104 Basis for Remuneration – Education Personnel

A. Philosophy

To provide a basis for the remuneration of various classes of employees, a denominational remuneration scale has been adopted. The philosophy of this remuneration scale is predicated upon the fact that a spirit of sacrifice and dedication should mark God's workers irrespective of the position hold or the department represented. The work of the church, including every denominational organization, is a mission to which lives are dedicated rather than a business or commercial venture. The church remuneration scale does not always compensate its dedicated employees in monetary units commensurate with talents, accomplishments, and contributions, but does provide employees with a modest living income, which gives recognition of responsibilities borne, preparation undertaken, professional attainment, previous experience, and years of service. In addition to basic remuneration, the church has also made provision for various types of allowances.

B. Certificated Administrative and Instructional Personnel

1. NAD Remuneration Scale

The annual salary for the 12-month working assignment is based on the NAD Remuneration Scale as adopted at the NAD year-end meetings and the union executive committee and the local conference executive committee. The annual salary for the 10-month working assignment is computed at 95 percent of the annual 12-month salary.

2. Change in Remuneration Policy

If a remuneration policy is changed resulting in an employee receiving a lower salary or wage percentage placement on the salary/wage scale, that employee shall remain at the higher rate while remaining in the same position.

C. Classified Personnel

The salary or wages for classified personnel is based on the 12-month salary rate.

Remuneration for classified personnel is based on employment classification as follows:

1. Salaried Classified Personnel. [See Section F12-104.]
2. Non-Exempt Classified Personnel. [See Section F12-108.]

F10-108 Annual Remuneration Factors

The cost-of-living remuneration factors for a local conference are voted by the local conference executive committee and may vary from those voted by the union executive committee. Each local conference office of education is to implement the cost-of-living remuneration factors voted by the local conference executive committee.

F10-112 Local School Employees [New Policy 5/2013; Revised 4/2015]

Conferences have locally funded school personnel on payroll with costs funded by the local school. These employees are eligible to earn denominational service credit and to participate in all benefits for which they are eligible.

REMUNERATION FOR CERTIFICATED ADMINISTRATIVE AND INSTRUCTIONAL PERSONNEL | F11

F11-104 Relationship of Certification and Assignment to Remuneration

The relationship of certification and assignment to remuneration is indicated by the following:

A. Salary-step Placement

Three years (four summers) will be the maximum for completion of the requirements for the endorsement(s) without financial penalty. Failure to complete the requirements during the time granted may result in implementation of the provisions of "C".

C. Deadline for Receipt of Transcripts

Complete transcripts needed for issuance of a certificate or documentation of credit needed to renew or update a certificate must be in the union office of education by November 1. The salary will be reduced five percentage points beginning November 1 if documentation is not received by that date and will remain in effect until the first day of the calendar month after the certificate is presented to the employing organization. No retroactive adjustment will be made for the period of time between November 1 and the date the certificate is presented to the employing organization. Delay due to no fault of the teacher will not result in a loss of salary.

[See Section F11-124 for a listing of the salary-step placement schedule for elementary and secondary instructional personnel and F11-140 for the campus chaplain.]

HOUSING ALLOWANCES | F13

F13-104 General Provisions

The remuneration factor and the implementation of cost-of-living granted to the employee include a provision for housing. The full implementation of the Relocation Assessor published by the Economic Research Institute, Inc. (ERI) provides the employee with adequate housing assistance as per local conference policy. No additional housing allowances may be granted, except as provided for in Section F13-116.

F13-108 Rental of Academy-Owned Housing

Housing provided by the employer should be charged to the employee at current community rates or at the rate indicated by the Economics Research Institute, Inc. (ERI) indicator for the location where the employee is employed, whichever is less. Any variance to this recommendation is to be approved by the next higher organization. In the case of boarding academy personnel who are requested to live in school-owned houses or dormitory quarters as a condition of employment, the rate of rent charged shall be at least 75 percent of the community rate. This same rate will apply to local conference and camp caretakers.

F13-112 Parsonage Allowance

An education employee licensed or ordained as a minister is eligible for the minister's parsonage allowance. The minister's parsonage allowance is tax-free. In order to be eligible for this exemption from income it is necessary that an estimate of parsonage expense be submitted to the employing organization in December prior to the year for which the exclusion is requested or at the time of employment if during the year. This estimate is to be acted upon by the governing board and is to become a part of the minutes of that organization. A report of actual expense for the year is to be submitted to the employing organization at the end of the calendar year. The actual amount (provided it is not larger than the current maximum or larger than the estimate submitted) is deducted from the annual salary. Forms for reporting parsonage expense are available from the local conference office of education or finance officer.

The maximum parsonage exclusion effective January 1, 2003 is not to exceed 80% of salary plus cost-of-living allowance. The percentage of parsonage exclusion may be adjusted by union executive committee action.

F13-116 Additional Housing Assistance

A. Initial Assistance

When an employee is moved from one location to another, and because of the conditions of a lease or failure to sell or rent a home, housing expenses must be paid at both locations, an allowance may be granted to cover the time when payments are being made at both locations and both homes are habitable. The allowance may be granted under normal conditions up to three months.

F13-116 Additional Housing Assistance (Cont'd)

B. Unusual Circumstances

In unusual circumstances when the employee has not been able to sell the home at the former location and evidence is presented indicating that the asking price for said home at the end of the three-month period referred to in F13-116.A. was no more than 100 percent of an appraisal provided by an independent appraiser, up to an additional three months' assistance may be granted. An independent appraiser shall be understood to be a qualified appraiser such as may be contacted through banks or home loan associations. Real estate agents shall specifically be excluded from this group. The reasonable cost of such appraisal will be reimbursed by the employing organization.

C. Extreme Circumstances

If the employee has not been able to sell the home after having received an allowance for six months because of extreme circumstances, the allowance may be continued for a further period of up to six months if the asking price for the said home is not more than 95 percent of the appraisal during this period.

D. Amount

When granted, the allowance monthly shall be the actual expense for principal and interest, property taxes, and insurance up to 100 percent of the cost factor (housing/utilities/property tax of the Relocation Analysis Report) as indicated by Economics Research Institute, Inc. (ERI) for which the employee was eligible at his former location. Fifty percent of any rental income shall be deducted from the allowance.

E. Sharing of Loss on Sale

In view of the importance of pricing a home correctly before it is placed on the market, and due to the critical importance of the first 30 days in the sale of the property, both the employee and the new employer may agree at any time during the selling process that in lieu of spending all the duplicate housing allowance provided above, the property may be placed for sale at less than 100 percent of market value as determined by current appraisal. The cost of the reduction may be shared between the new employer and the employee at an agreed upon ratio on an individual basis. The employer cost is not to exceed the maximum duplicate housing allowance provision.

F. Purchase of Employee's Home

If in the course of transitioning an employee from one location to another, the employing organization decides that it is in its best interest to acquire the home where the employee currently lives, in order to facilitate the relocation of the individual to the new job assignment, the employing organization may exercise that option with the approval of the governing committee and where applicable, the association or corporation. The home shall be appraised by a third party, and the price will be set excluding realtor fees.

G. Coordination of Benefits

The employing organization should discuss the options available to the employee, and should avoid the unnecessary application of the provisions of this policy.

[*NAD Working Policy* FEA 37.] Generally, expenses are shared between the employee, school, employing organization and the union office of education. A written agreement must be signed by all interested parties prior to commencement of a program of study with denominational financial support.

F19-120 Doctoral Degree at Employee Expense

An employee who has earned a doctoral degree at personal expense, or who has secured the doctoral degree with partial denomination support, may be reimbursed for personal expenses up to the prescribed limits as follows:

A. Written Agreement

A written agreement must be signed by all interested parties outlining the details of the actual expenses, amount of assistance, payment schedule, and amortization prior to payments.

B. Financial Limits

Full reimbursement will be equal to 70 percent of the annual remuneration factor as voted annually by the Church. The remuneration factor in effect at the time of the agreement will apply over the full period of the reimbursement. Any assistance which an institution may provide a teacher for doctoral studies will reduce on an actual basis the amount of doctoral reimbursement which would otherwise be provided.

C. Amortization

A maximum of five years of full-time service will amortize full reimbursement. A prorated scale will establish amortization time for less than full reimbursement. Employment of a prospective teacher between the conferral of the doctorate and employment by the school will normally reduce the total amount granted by the school for doctoral reimbursement.

F22-208 Financial Audits with General Conference Auditing Services [New Policy 5/2014; 4/2017]

Each organization shall prepare its financial statements to be audited annually or receive some other level of service as approved by the General Conference Executive Committee.

A. Preparation for Annual Audit

The audit process is more efficient when an organization prepares well in advance. In preparing for an audit, the organization shall do the following:

1. Complete the recording of financial transactions and prepare the corresponding statements of financial position, financial activities, cash flows, and relevant footnote disclosures no later than 90 days after the end of the organization's financial year. The financial statements are to be prepared based on the *Seventh-day Adventist Accounting Manual*.
2. The principal officers of the organization shall sign an engagement letter with the auditor which enumerates the mutual expectations and responsibilities, the scope and timing of the work to be performed, and the associated fees.
3. The organization should provide the supporting material requested by the auditor in electronic form, wherever possible.
4. The principal officers, as required by *NAD Working Policy S 90*, shall furnish in writing to the auditor a set of assertions regarding the organization's compliance with denominational core policies.

B. Participation on the Annual Audit

The audit process is a collaborative effort on the part of the auditor and management of the organization. Management shall make the appropriate arrangements to be available during the course of the engagement and be responsive to requests made by the auditor. If at the close of scheduled audit procedures, management has not provided all the information requested by the auditor, the auditor shall inform management of the audit status and request a written engagement extension letter. At the close of the engagement, an exit interview will be conducted. The auditor shall supply a draft of the audit report for management to review before it is finalized. Since the financial statements are the responsibility of the organization, it is important for them to be reviewed and understood.

C. Presentation of Audit Reports

Within 60 days of the close of the audit engagement, when all outstanding issues have been resolved, the auditor will provide to management of the organization and the chair of the Audit Committee the audit report which includes an opinion on the financial statements, a report on compliance with the core policies of the denomination, and an audit communication letter which includes any significant deficiencies identified in internal controls. Upon receipt of this report, the management of an organization shall do the following:

1. Provide to the Audit Committee a copy of the audit report along with their response to any findings within 60 days of receiving the report from the auditor.
2. Provide to the auditor a copy of their response to any findings they have shared with the Audit Committee.

F22-212 Audit Committee [Renumbered and Revised 5/2014]

The controlling board or executive committee of each organization shall establish a subcommittee known as the Audit Committee to meet at least annually and discharge the functions as outlined in the charter (terms of reference) provided to promote transparency and full disclosure on audit matters. 11. Provide oversight for the conflict of interest policy and address risks associated with any conflicts identified.
12. This report should be accompanied by recommendations for the controlling board or executive committee to consider.

Under circumstances where legal requirements permit and conferencing facilities are deemed satisfactory to the client and the auditor, the auditor may choose to attend, via teleconference or videoconference, the meetings mentioned above. Although it would be normal and expected for the auditor to attend the Audit Committee in person or via other conference facilities, attendance by the auditor at such meetings is not mandatory.

F22-216 Working Capital [Renumbered and Revised 5/2014; 5/2022]

Economic downturns and financial emergencies are part of the routine cycle of organizational life. Church organizations would do well in being prepared for such downturns and emergencies by ensuring resources are in place to prevent or minimize any disruption to its mission. Being prepared would include having sufficient resources to cover operational expenses and appropriations to subsidiary or related organizations for a predetermined period of time. Each organization should be mindful to build up reasonable reserves of working capital in preparation for unfavorable financial times. It would be prudent for an organization to hold a significant portion of its available working capital in liquid assets.
